**TO: CHAIRMAN AND MEMBERS OF THE  
NORTHERN YORK COUNTY REGIONAL POLICE  
BOARD OF COMMISSIONERS**

**FROM: CHIEF CARL A. SEGATTI**

**SUBJECT: ANNUAL REPORT 2006**

### **INTRODUCTION**

I would like to take this opportunity to highlight some of the major issues that presented themselves during 2006. You will find detailed accounts of activities throughout this report.

Each successive year continues to add challenge! This year, our Department continued to provide services to eight municipalities, the Townships of Dover, Manchester, Paradise, Conewago, Franklin, and Jackson and the Boroughs of Dover and North York.

The governing body (the Commission) is comprised of one elected official from each municipality. As such, Mr. Duane E. Hull represented Dover Township; Mr. Robert Eichelberger and Mr. Eric J. Van Dyke represented Dover Borough; Mr. John D'Ottavio represented Manchester Township; Mr. Lance Biesecker represented Paradise Township; Mr. Donald Knouse represented Conewago Township; Mr. Kevin Hevner represented North York Borough; Mr. Larry Lambert represented Franklin Township; Mr. David Brown represented Jackson Township. Mr. Joseph Rudolf from Reed Smith LLP in Philadelphia, PA represented our department and commission as solicitor. Kochenour, Earnest, Smyser, and Burg conducted an audit of our financial records.

These eight municipalities together encompass 145 square miles or 15.9% of the total landmass for York County. In accordance with generally accepted population figures, service is provided to about 60,840 citizens, which means that the Northern York County Regional Police Department serves more than 1 in 7 York County residents. The population, by municipality, is Dover Township - 19,790, Dover Borough - 1,922, Manchester Township - 16,526, Paradise Township - 3,886, Conewago Township - 5,952, North York Borough - 1,649, Franklin Township - 4,771, and Jackson Township - 6,344.

# NORTHERN YORK COUNTY REGIONAL POLICE DEPT JURISDICTIONAL MAP

The map displays the jurisdictional boundaries of the Northern York County Regional Police Department. The area is divided into numerous townships, each labeled with its name. The map also shows the locations of several villages, which are highlighted in dark green. The map is oriented with North at the top. The title 'NORTHERN YORK COUNTY REGIONAL POLICE DEPT JURISDICTIONAL MAP' is prominently displayed at the top left of the map.

## STAFFING

### Units of Service

In keeping with the dictates of the "Articles of Agreement", municipalities purchase time by using a "unit of service" concept. Units are currently measured by a formula of 10 hours equaling one unit. Time is monitored in fifteen-minute increments on a daily, weekly and annual basis. This year, the Department managed 93,600 hours of service. The municipal breakdown of time is depicted on Table I.

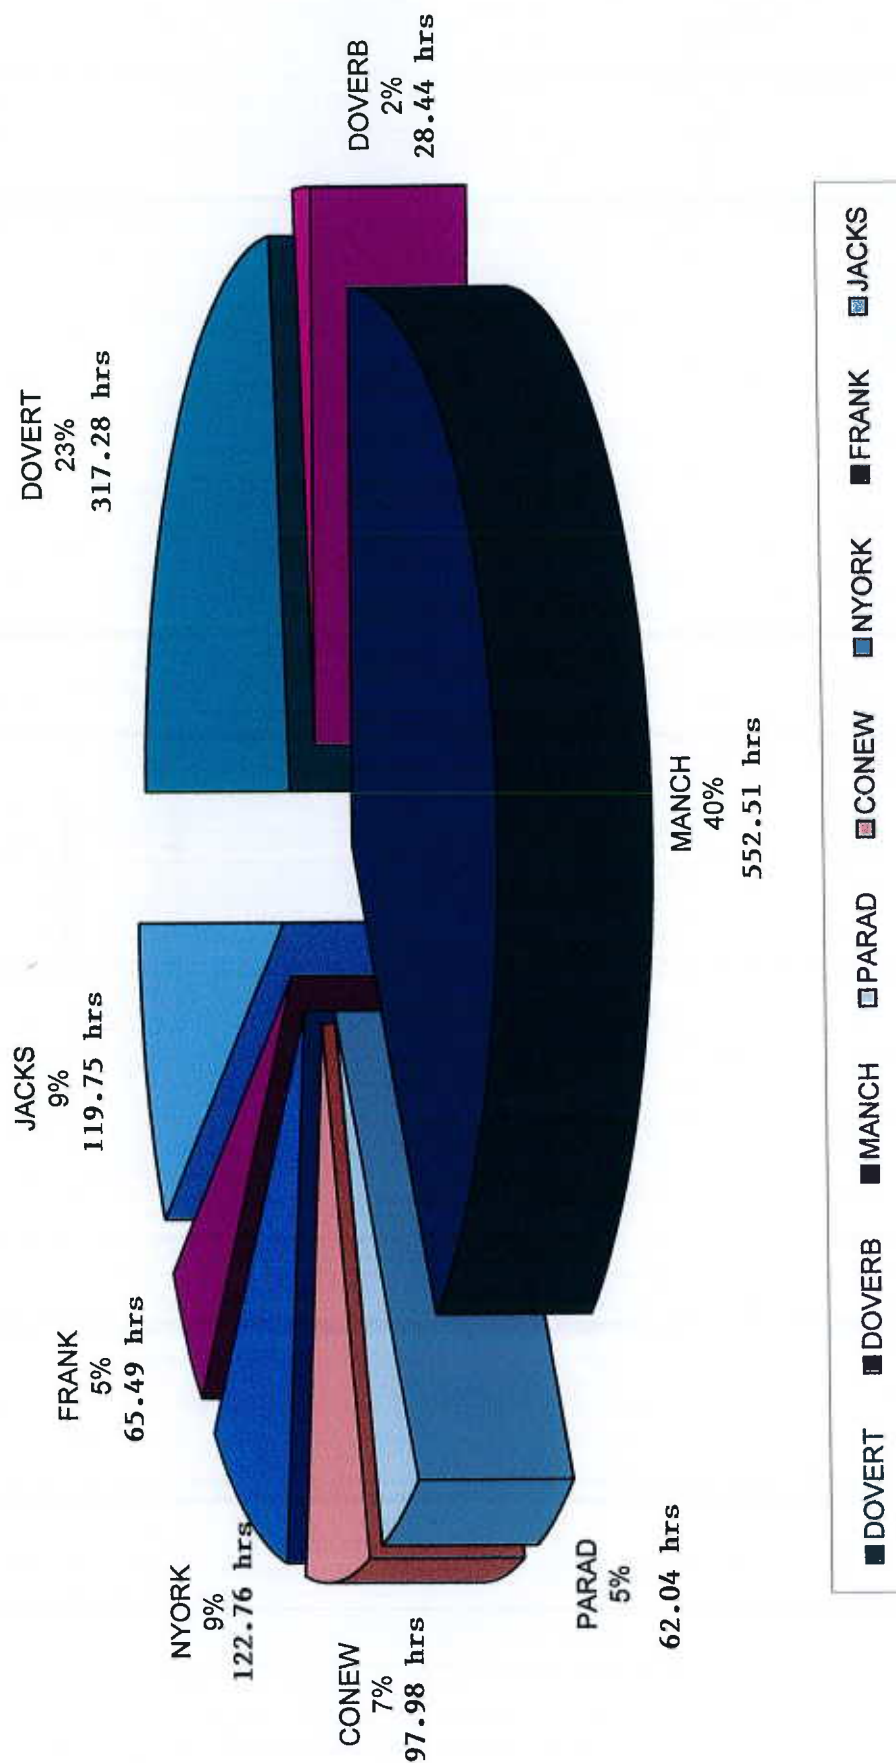

**TABLE I  
MUNICIPAL UNITS OF SERVICE**

MUNICIPALITY	HOURS		BALANCE	
	WEEK	YEAR	HOURS	PERCENT
DOVER TOWNSHIP	560	29120	- 14.34	- .049
DOVER BOROUGH	60	3120	+ 2.85	+ .091
MANCHESTER TWP	630	32760	+ 17.66	+ .054
PARADISE TWP	90	4680	- 6.89	- .147
CONEWAGO TWP	150	7800	+ 1.46	+ .019
N YORK BOROUGH	80	4160	+ 1.16	+ .028
FRANKLIN TWP	75	3900	- 2.32	- .059
JACKSON TOWNSHIP	155	8060	- 1.22	- .015
<b>NYCRPD</b>	<b>1800</b>	<b>93600</b>	<b>- 1.64</b>	<b>- .002</b>

In addition to the unit time, another 1,366.25 hours of overtime was worked throughout the year. This was 300.00 hours less than last year. This overtime information is depicted on Chart I.

Furthermore, the Department was successful in obtaining grant monies from the Department of Community and Economic Development to be used for Operation Nightlight (\$407.80/19.25 hours). Also, several other private overtime duty details were completed for a total of \$20,057.50/274.25 hours. This time is in addition to, but not included in, Table I or Chart I.

CHART 1  
OVERTIME HOURS

2006 Total Hours = 1366.25

## Personnel

Twenty-three (23) members of the Department missed no sick time during 2006. Among these would be Lt Bollinger and Lt Bentzel, Sgts Steffen, Gearhart, Wasilko, and Lash, Cpls Burchfield, Foust, Anderson and Neidigh, Officers Asper, Emenheiser, Godfrey, Hoffman, Kulak, Migatulski, Neff, Olson, Pague, Sanger, and Tome along with myself. Many of these members have not missed a day in years. The sworn members missed an average 2.80 days this year compared to 3.05 last year. The non-sworn member average was 10.19 days compared to 5.34 days during 2005. Because the department's members (by and large) are a fairly healthy group, we were awarded a rebate of approximately \$98,980 by our health insurance cooperative.

During the year, six workers compensation claims occurred. One officer was exposed to patient with meningitis, one officer was injured while making an arrest, another officer was injured while struggling with an armed suspect, one officer was injured while moving a motorcycle at an accident scene, one officer was injured as he slipped walking down steps and one support staff had an injury to her hand from repetitive clerical movement.

Department members received 47 letters of commendation from citizens this year. This is 3 more than 2005. In addition to the citizen commendations, the Chief and the Board recognized many officers for the fine work they did throughout 2006.

The Department received and investigated 2 conduct complaints in 2006. The conduct complaints arose as a result of an officer hitting a fixed object, i.e., a parked car and one case as a result of an officer taking his meal break out of his district without his supervisor's permission. The first incident resulted in a "Letter of Caution" and the second, a suspension. The number of founded complaints against officer(s) is not acceptable to the Administration. However, neither is the alternative, which would prevail without the department's disciplinary policy.

## **FLEET REPORT**

During 2006, the department deployed 15 traditional sedans for patrol and 2 special services crime scene vehicles. There are five 4-wheel drive units—three Ford Explorers, one Jeep Cherokee, and one Chevrolet Blazer. Not included in this total are a Royal Enfield motorcycle, a Kawasaki KZ 1000 motorcycle, and a Honda motor scooter. These units are occasionally used for parade and other traffic or crowd control assignments. Two speed control trailers and a trailer used to transport Officer Dorothy are also listed in the fleet inventory.

Four (4) vehicles were sold in 2006 at auction for a total of \$16,000. These vehicles brought an average of \$4,000 with an average mileage of 112,195. The amount each vehicle sold for and their description (year, make, model, mileage) are as follows:

- 1997 Ford Crown Victoria - 105,873 miles - \$1,600
- 2001 Ford Crown Victoria - 120,363 miles - \$4,100
- 2003 Ford Crown Victoria - 113,252 miles - \$5,100
- 2004 Ford Crown Victoria - 110,990 miles - \$5,200

The fleet traveled 611,145 miles during the course of the year. We consumed 45,954 gallons of fuel for a fleet fuel average of 13.30.

In completing the various tasks and functions associated with the delivery of police service, the department traveled 611,145 miles during the year. This is a decrease of 63,917 miles compared to 2005. We experienced 8 accidents this year as a result of officer culpability, 6 of which were referred back to the platoon leader for "non-formal" discipline. The average cost per crash was \$616. Our overall record during 2006 was good. We will do everything we can to improve during 2007. We believe our improving accident record is in no small part due to our participating in EVOC (Emergency Vehicle Operations Course) by each officer on a regular basis. It is interesting to note that every minute of every hour of the year a Northern York County Regional Police Patrol Unit was moving throughout our communities. Therefore, as each of the 525,600 minutes of 2006 ticked away, your police officers traveled a mile every 1.16 minutes.

**FIELD SERVICES DIVISION**  
**Patrol Section**

Calls for Service

In order to understand the workload demands placed on the department, it is important to have a historical perspective. In other words, where have we come from and where might we be going. To that end, we offer the following ten-year recap of activities. Our base year for this purpose is 1997.

<u>Year</u>	<u># Calls</u>	<u>% Incr/Decr</u>
1997	21,216	- 2.20%
1998	22,297	+ 5.10%
1999	21,701	- 2.67%
2000	22,600	+ 4.14%
2001	22,838	+ 1.05%
2002	23,125	+ 1.26%
2003	26,052*	+ 12.66%
2004	25,292**	+ 1.65%
2005	25,870	+ 2.29%
2006	26,677	+ 3.12%

\*Includes Jackson Township figures from January, February & March 2003

\*\*The decrease in total calls from 2003 to 2004 results from the withdraw of Dillsburg Borough. However, participating members collectively experienced an increase.

This year our call load showed an increase of 3.12%. In 2006, we serviced 26,677 calls for police assistance, which are 807 more calls than the previous year. Therefore, our ten-year annualized average increase is 26.40%, which is a yearly average increase of 2.64%. A four-year review of this information is depicted on Chart II.

At this point, we will discuss, in some detail, the 26,677 calls serviced. As you review this information, it might be beneficial to understand how authorities look at police activity. "Experts report (and authorities generally agree) that of all the calls received for police assistance, approximately 20% will be "Criminal" in nature and 80% will be "Service" in nature". Our figures indicate that 15.76% (4,204) of our total calls (26,677) were criminal in nature and 84.24% (22,473) were service in nature. Therefore, we appear to be experiencing a less than average amount of criminality and a higher than average amount of service activity in our jurisdiction when compared to the norm.

A breakdown of our total activity has been charted in five general areas. Calls that are criminal in nature as defined by the Uniform Crime Report are a combination of 1,232 Part I offenses and 2,972 Part II offenses. Calls that are service in nature are a combination of 1,702 traffic accidents investigated, 470 ordinance violations and 20,301 incidents that have not been classified as criminal in nature and may best be described as service calls.

### Activity

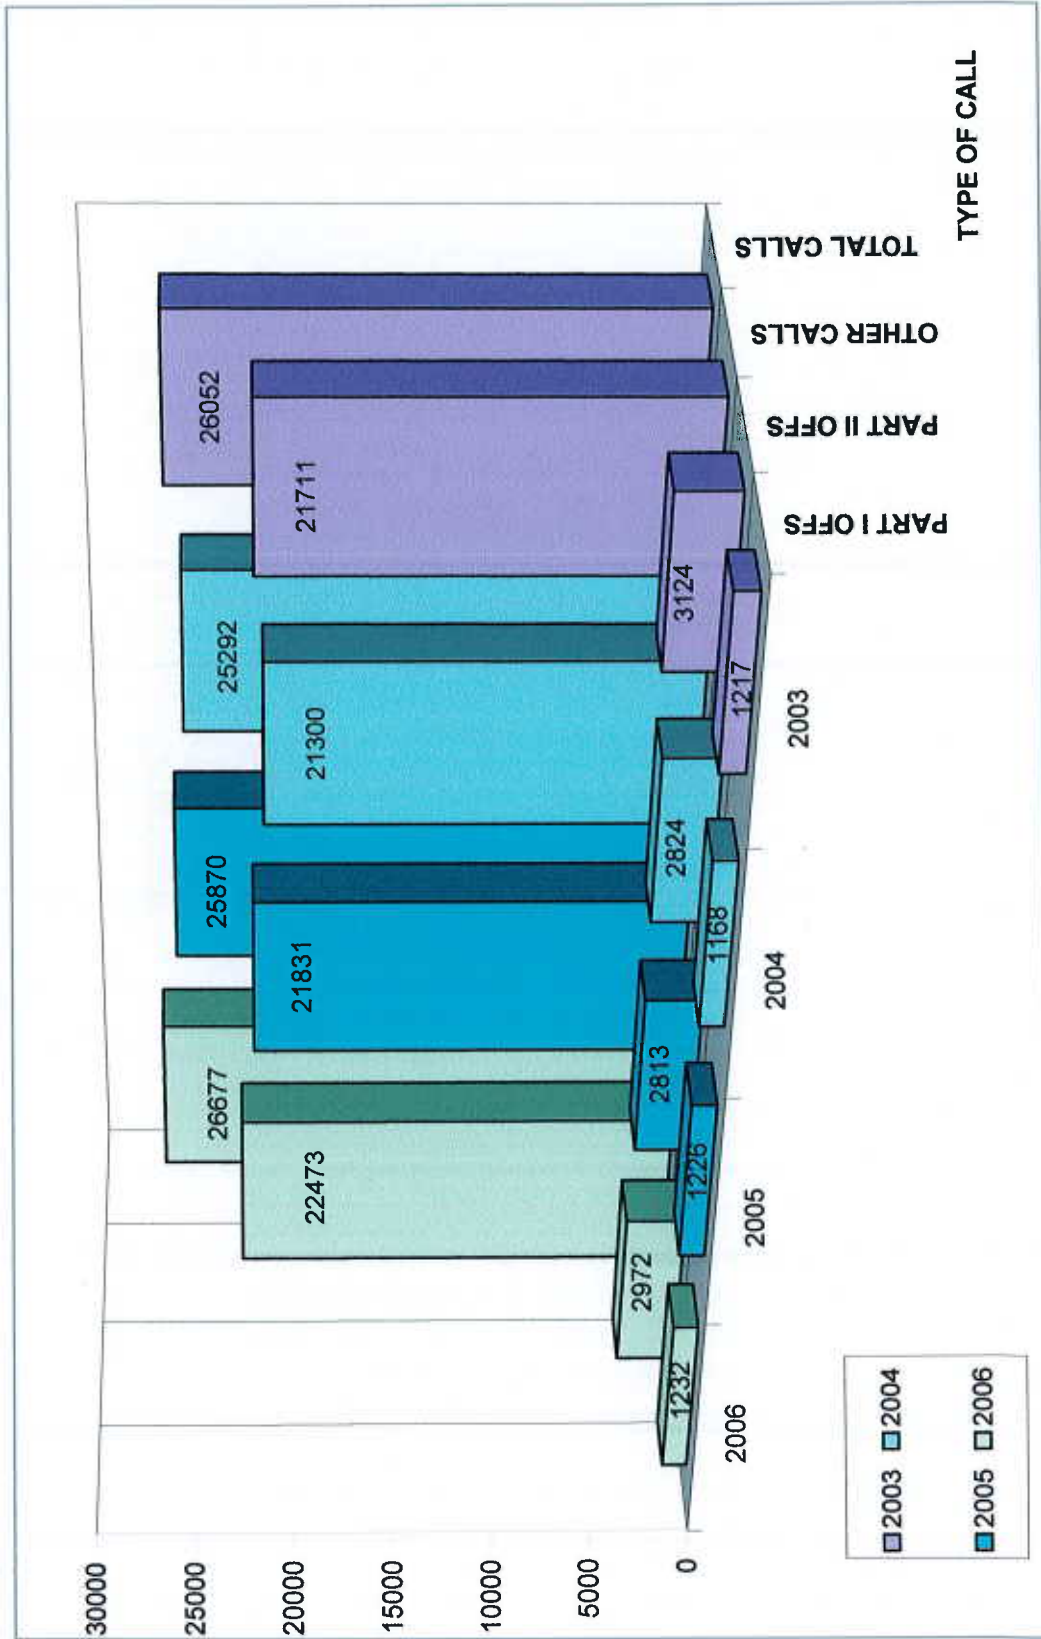

The Field Services Division, Patrol Section issued 11,384 traffic citations this year. This is an increase of 1,772 compared to 2005. For historical reference, our traffic enforcement index has, in the past years, moved both higher and lower. To wit, the enforcement index for 2003 was 31.91, then it decreased to 23.42 in 2004, and then it increased to 29.04 in 2005. In 2006, the index increased to 33.48. The Board should know that the enforcement index is determined by dividing the number of injury/fatal accidents into the number of citations issued-- ( $11384 \div 340 = 33.48$ ). An optimum enforcement index is 10 to 20 citations for every injury accident according to authorities in the field.

In addition to the 11,384 citations, officers issued 2,950 written warnings, down from 2,992 last year, 1,813 faulty equipment cards, which is down from the 2,000 issued in 2005, 520 parking tickets, up from 403 last year and 1,513 non-traffic citations, up from 1,368 last year. Also, 153 abandoned vehicle notices were issued along with 80 parking warnings. Therefore, patrol conducted no less than 16,900 traffic-related investigations in 2006 or more than 46 per day, on average, or almost 1.93 each hour of every day. None of this activity is classified as a reportable case and, therefore, is not tallied in the call-load figures expressed elsewhere on this report. Again, the Board should understand that this is self-initiated activity and not counted as a call or calls.

In 2006, 278 persons were charged with "driving under the influence", which is less than the 295 DUIs effected in 2005. Statewide, in 2005, 46,386 drivers under the influence were charged, which is 373.2 per 100,000 of population. Based on that statistic, our rate, in relation to our population, should be 227 DUI arrests, where, in fact, we are about 146 more than that ratio. Within the Commonwealth, there are a total of 24,535 full-time police officers. Throughout the state, each police officer makes more than one DUI arrest per year (1.89 arrest per officer per year\*). Our 46 police officers (based on the 278 DUIs we arrested in 2006) arrested 6.04 DUIs per officer. Our men arrested 3.2 times as many intoxicated drivers as did their counterparts across the state.

CHART II

# CALLS FOR POLICE SERVICE

Again this year, the Northern York County Regional Police Department finished sixth in police departments in the Commonwealth for DUI Enforcement.\*\* We finished ahead of many large agencies that are more than double/triple our size, such as Erie, Altoona, Harrisburg, Easton, Johnstown, and Lancaster. Needless to say, no department in central Pennsylvania affected the number of DUI arrests that the Northern York County Regional Police effected. Our 46 police officers averaged 6.04 drunken drivers per officer. The majority of these arrests occurred between midnight and 3 a.m. with most of the arrests occurring after 0200 hours.

\*Figures for statewide averages based on the most current UCR Data, which is 2005. Our arrest figures are based on 2006 data.

\*\*Source: The PA DUI Association Newsletter

There were 63 drunk drivers involved in motor vehicle accidents, which reflect 22.66% of the total drivers charged with DUI. Of the 278 people arrested, 225 or 80.94% were male and 53 or 19.06% were female. Those arrested for DUI, on average, had a blood alcohol concentration of .185% or more than 2.3 times the legal limit. The highest blood alcohol reported in 2006 was .313% or 3.9 times the legal limit.

#### Warrant Activity Report

In a 12-month period during 1995/1996, the Department served 365 warrants or 1 per day. Because of municipal concerns expressed by the Board of Commissioners, a concerted effort was initiated during the last several years to increase the number of warrants served by the department. In 2006, the department served a total of 722 warrants or almost 2 warrants per day. Included in this total were 647 summary warrants, 13 misdemeanor warrants, 10 felony warrants, and 52 bench warrants.

## Community Police Unit

The "Community Police Unit" presented a total of 58 programs in 2006, reaching out to over 5,500 people. Of these, 22 programs were presented to our local schools and more than 3,000 students were addressed through a variety of assemblies and in-class seminars. These programs ranged from personal safety issues to drug awareness. Also, the CPO Unit hosted 34 civic programs with 2,500 persons in attendance. There were 42 child car seat checks completed by our certified car seat technician.

In addition, the unit has also been involved with community concerns and activities with everything from problems with traffic flow and speeding motorists to the coordinating of benefit runs, parades and block watch events. The CPO instructed four classes in "Coaching the Mature Driver" this year involving 69 participants, age 55 and older. Throughout the history of the "Mature Driver" classes, the CPO unit has taught over 500 "students" with this defensive driving program. The unit also instructed 2 "Alive at 25" courses involving 14 participants less than 25 years of age in defensive driving. The unit was also asked to participate in "Ag Progress Days" held at Penn State University. This is a 3-day event in which we did several presentations on "Farm Equipment on the Roadway" to reach out to the farming community.

The Citizen Satisfaction Surveys, which we will discuss later in this report, are an additional tasks assigned to the CPO Unit.

"Officer Dorothy" was utilized in 23 programs at the schools and at local civic events. Several donations were received throughout the year for the "Officer Dorothy" Program, totaling \$2,705.

The Northern York County Regional Police Department continues the practice of providing students from throughout the community the opportunity to experience a "hands on" learning environment in the arena of the disciplines of both science and criminal law through the second annual "Officer Dorothy Forensics Camp" funded by the Dorothy Kling Endowment Fund.

The program allowed the NYCRPD to reach out to over 25 students of achievement from local high schools to interact with officers from the CID and Field Services Unit. These officers provided instruction and one-on-one interaction in an overview of the crime scene evidence identification, preservation and collection practices, and students were exposed to the entire array of tools employed by the NYCRPD to effectively process crime scenes and document the scene for effective courtroom presentation.

The students and the involved officers all benefited from the interaction and instruction process. The students were provided lunch and an instructional package of assorted materials donated from the business community.

Photo Courtesy of Byron Wilt

## Serious Crime

The 1,232 reported crimes classified as Part I Offenses under the FBI Uniform Crime Report System are the most serious crimes. Serious crime was up 0.49% (6 incidents) in our entire jurisdiction. Part I crimes include Homicide, Manslaughter, Rape Robbery, Aggravated Assault, Burglary, Theft, Auto Theft and Arson. Serious crimes were reported to municipalities numbering 285 cases in Dover Township (3 cases more than last year), 69 cases in Dover Borough (15 cases more than last year), 411 cases in Manchester Township (15 cases more than last year), 46 cases in Paradise Township (6 cases more than last year), 150 cases in Conewago Township (31 cases less than last year), 86 cases in North York Borough (5 cases less than last year), 37 cases in Franklin Township (4 cases more than last year), and 148 cases in Jackson Township (1 case less than last year). Our overall Department clearance rate for these crimes is **32.22%** compared to 30.67% in 2005. The Statewide clearance average in 2005 was 27.5%. The County average in 2005 was 32.2%.\*

\*Figures for state and county averages based on the most current UCR Data, which is 2005.

A breakdown of the Part I crimes over three years reported to our Department can be viewed on Table II.

**TABLE II**  
**PART I - CRIMES**

<b>CRIME CLASSIFICATION</b>	<b>REPORTED CASES 2004/2005/2006</b>			<b>2005/2006 INCREASE/DECREASE</b>
HOMICIDE/INVOL MANS	1	0	1	+ 1
RAPE	3	2	2	No change
ROBBERY	22	25	19	- 6
AGGRAVATED ASSAULT	30	32	35	+ 3
BURGLARY	149	155	127	- 28
THEFT	911	950	988	+ 38
AUTO THEFT	46	61	57	- 4
ARSON	6	1	3	+ 2
<b>NYCRPD</b>	<b>1168</b>	<b>1226</b>	<b>1232</b>	<b>+ 6</b>

A formula is available to numerically chart or indicate a municipality's crime rate in finite terms. The rate is determined by dividing 100,000 by a municipality's population, times the Part I reported crimes. The overall regional jurisdiction experienced an annual decrease (-1.56%) in the crime rate. Municipal crime rates appear for review on Table III.

**TABLE III**  
MUNICIPAL CRIME RATE

<b>MUNICIPALITY POPULATION</b>	<b>PT I CRIMES 2004/2005/2006</b>	<b>2006 CRIME RATE</b>	<b>2005/2006 INCR/DECR</b>

<b>NYCRPD 60,840</b>	<b>1168 1226 1232</b>	<b>2024.98</b>	<b>- 32.03</b>

### Less Serious Crime

The 2,972 reported crimes, classified as Part II offenses under the FBI Uniform Crime Report System are less serious crimes. Part II crimes increased 5.65% or 159 incidents compared to 2005. Our overall department clearance rate for these crimes was **73.28%** compared to 73.91% in 2005. The state Part II average in 2005 was 47.7% and the County average was 58.4%.\* Our grand total clearance rate for both Part I and Part II crime was **61.25%** compared to 60.78% last year. A three-year review of these crimes appears on Table IV. (\*Figures for state and county averages based on the most current UCR Data, which is 2005.)

DUI*	258	295	278	- 17
LIQUOR LAWS	99	66	54	- 12
PUBLIC DRUNKENNESS	87	85	82	- 3
DISORDERLY CONDUCT	523	482	473	- 9
OTHERS**	359	384	422	+ 38
<b>NYCRPD</b>	<b>2824</b>	<b>2813</b>	<b>2972</b>	<b>+ 159</b>

\* DUI arrests where drugs are the cause of intoxication are classified by the higher UCR value attached to drug usage. During 2006, nineteen (19) "drivers under the influence" were found to be under the influence of drugs and, therefore, charged with DUI (Drugs) and, as a result, removed from the population of traditional "drivers under the influence" for accurate reporting.

\*\*See Appendix "A" (all other classifications under UCR; does not include township/borough ordinances)

CHART III

PART I AND PART II OFFENSES CALL HISTORY

## Service Calls

As mentioned earlier, national averages indicate that approximately 80% of all calls received by Police will be "service" in nature. We found ours to be 84.24% this year. Municipalities as shown on Table V received these 22,473 calls.

**TABLE V**  
MUNICIPAL CALLS FOR SERVICE

MUNICIPLTY	TOTAL CALLS			SERVICE CALLS			% OF TOTAL	
	2004	2005	2006	2004	2005	2006	2005	2006
Dover Twp	6812	7145	7352	5827	6117	6252	85.61	85.04
Dover Boro	1149	1057	1225	896	866	994	81.93	81.14
Manch Twp	8151	8339	8813	6946	7090	7539	85.02	85.54
Parad Twp	1100	1130	1107	917	965	923	85.40	83.38
Conew Twp	2599	2788	2700	2184	2334	2282	83.72	84.52
NYork Boro	1776	1668	1757	1380	1307	1458	78.36	82.98
Frank Twp	1151	1061	1200	1003	933	1017	87.94	84.75
Jacks Twp	2554	2682	2523	2147	2219	2008	82.74	79.59
<b>NYCRPD</b>	<b>25292</b>	<b>25870</b>	<b>26677</b>	<b>21300</b>	<b>21831</b>	<b>22473</b>	<b>84.39</b>	<b>84.24</b>

Because so much of what the department does is service in nature, we recently extrapolated the top ten (highest number in volume) "service calls" that we responded to in 2006. Those "service calls" are listed below in rank order and by frequency:

- Assist fire, ambulance, and/or medic 2,592
- Assist disabled motorist 998
- Non-criminal domestic arguments 685
- Request for civil intervention 508
- Warrant services 458
- Assist other law enforcement agencies 433
- Non-criminal acts of harassment 295
- Check welfare of persons 226
- Property disputes 181
- Non-criminal neighborhood concerns 133

## Alarms

Response to alarms is classified as a service call. After several municipal alarm ordinances were revised and fines were increased for false alarms, alarms, by and large, continued to decrease. However, this year, alarms increased by 12.04%.

In 2006, total alarm dispatches accounted for 1,452 of the total call load or 5.44%. Last year, alarms accounted for 1,296 of the total call load or 5.01%.

A municipal alarm overview, which compares the number of alarms to the total number of calls in each municipality, finds that we handled 252 or 3.43% in Dover Township, 33 or 2.69% in Dover Borough, 774 or 8.78% in Manchester Township, 24 or 2.17% in Paradise Township, 134 or 4.96% in Conewago Township, 71 or 4.04% in North York Borough, 37 or 3.08% in Franklin Township, and 127 or 5.03% in Jackson Township. The workload generated by alarms in the Support Services Section remains considerable due to the time-consuming procedures for reporting, invoicing and the associated fiscal record keeping and payments to municipalities in accordance with the revised municipal ordinances.

Seal Courtesy of Tom McCune

## Vehicle Accidents

Accident investigations are also classified within the concept of a service call. We experienced an increase in the accidents we investigated this year. The 1,702 accidents reflect an increase of 6 crashes or 0.35% compared to 2005. Injury accidents investigated were 337 compared to 322 in 2005, for an increase of 15. In addition, we investigated 3 fatal accidents (4 deaths) reflecting a decrease of 4 or 57.14%. Alcohol related fatalities this year totaled 0. (A municipal breakdown of this information is shown on Table VI.)

CHART IV

# ACCIDENT CALL HISTORY

**FIELD SERVICES DIVISION**  
**Criminal Investigation Section**

The primary responsibility for follow-up investigations of serious crime is vested in the Criminal Investigation Section of the Field Services Division. This section is staffed with a Sergeant, who supervises three full-time investigators and an officer temporarily detached from Patrol.

The Detective Sergeant is responsible for the review of all criminal reports, supervision at all major crime scenes, staff review of all major criminal cases, liaison with other agencies regarding effective information exchange and coordination of investigative efforts, and preparing the Criminal Investigation Section schedule.

Other duties of the Criminal Investigation Section include:

- ◆ Assist the Patrol Division with fatal accident investigations
- ◆ Assist the Patrol Division with death investigations
- ◆ Serves as the system manager of the department's automated evidence management system--this includes tracking, retention, and transportation of evidence for laboratory testing
- ◆ Participation in crime prevention and reduction programs, which include working specialized details in areas where criminal activities are prevalent
- ◆ Assist the York County District Attorney Office Forensic Team in examinations involving advanced specialized forensic applications
- ◆ Process and presumptive analysis of evidence collected pursuant to criminal investigations
- ◆ Acts as a clearinghouse for the majority of automated fingerprint capture and digital imagery of persons charged with crimes
- ◆ Surveillance and specialized electronic video applications
- ◆ Perform polygraph examinations
- ◆ Maintaining evidence in a secure environment consistent with best handling practices for storage of evidence and property.

In previous annual reports, note was given to the efforts made by the agency in the acquisition of forensic equipment and other specialized technical means used in the investigation of crime. These measures have paid dividends for the agency with increased identification of offenders by collection of trace evidence, as well as providing the maximum amount of evidence available for prosecutors in securing convictions. As a result of increased evidence and property collection, the NYCPRD has been among the first, if not the only, agency in the county to implement and utilize an automated evidence management system employing bar code technology.

The efforts undertaken and the resultant professional growth of officers assigned to forensic evidence recovery has resulted in ability to address a wide array of specialized forensic situations including, but not limited to, bodily fluid identification, blood spatter, forensic light source applications, Krimesite RUVIS applications, chemical applications, presumptive testing of unknown standards, casting of impression evidence, and numerous other applications. It has been noted by prosecutors from the York County District Attorney's Office that prospective jurors appear to have an expectation that law enforcement process evidence effectively. It has also been opined by prosecutors that the NYCPRD has the ability to meet and exceed that expectation on a level second to none, with effective forensic evidence collection, analysis, and detailed reporting of the investigator process.

In recent years, the agency has progressed from the ability to handle major crime scenes in a proficient manner to the level of advanced proficiency in all aspects of crime scene management. This level of ability serves to maximize the efforts of the unit to meet the objectives established by the agency.

These abilities continue to pay dividends to the agency in identification of offenders and in some cases while excluding an offender, at least answer the question as to "what does this evidence really mean". Two recent cases best illustrate this point.

In the first scenario the NYCPRD responded to the scene of a homicide. There was a small pool of saliva noted in the alleyway. A sample was collected and submitted for DNA analysis. The suspect in the case had a sample of DNA collected and sent for analysis and comparison. The testing results indicated that the samples **were not identical**. The CODIS data base was able to identify the source of the unknown sample, and it was determined the subject was an ambulance crew member who was at the scene. This served to mitigate the "unknown person" defense by the

defendant, and serves to validate the evidence collection and identification process as far as thoroughness and integrity.

In a second case study, a small blood sample was collected from the scene of a church burglary. This sample later was identified and matched with a juvenile offender arrested by the NYCPRD for unrelated offenses. This sample and the resultant identification resulted in the clearance of the offense, which had no other factors of solvability associated with the crime and the investigation.

During 2006, the Criminal Investigation Section investigated a total of 839 assigned cases and cleared 593 of the cases assigned. The Section's clearance rate is 70.67%. The Criminal Investigation Section submitted a total of 422 general incident reports and 3,858 supplemental reports. In addition, the Section conducted a total of 28 polygraph examinations, as well as cataloged over 1,200 evidentiary items. A total of 241 defendants were arrested during the year; this compares to a total of 192 defendants arrested in the previous year. This represents an increase of 7.9 % persons charged. Felons arrested during 2006 total 132 as compared to 121 in 2005. The unit arrested a total of 109 misdemeanants for the period. The year was filled with complex investigations requiring specialized data and crime analysis techniques, which were employed to assist in eventual identification and apprehension of offenders.

In the paragraphs that follow, the reader is provided an overview of cases handled within each municipality by members of the Criminal Investigations Section during 2006:

#### DOVER TOWNSHIP

A 60-year old male who was employed by the Dover Area School District has been charged with sex offenses related to the indecent assault of two teen age high school male students, who were employed as summer employees. The subject is free on bail awaiting trial.

A 19-year old male has been charged for involuntary deviate sexual intercourse and associated offenses following the investigation into the sexual assault of a 5-year old Dover Township female. This individual is currently free on bail awaiting trial.

A series of four armed robberies at a local business were solved. An adult male remains in the York County Prison awaiting trial for the robbery of a 24-hour convenience store on the Route 74 corridor. The subject displayed a knife at the time of the robbery.

NYCRPD CID unit members assisted the NYCRPD patrol division in the investigation into a single vehicle crash resulting in the death of two area youths and serious injury to three other car occupants. Investigators assisted with forensic processing, digital imagery and with numerous follow up interviews.

Investigators arrested a juvenile male for bias based threats made against a local family. NYCRPD investigators worked closely with both state and local social service agencies in association with the investigation.

Investigators seized in excess of 100 marijuana plants from fields throughout the township as part of an aerial interdiction and drug eradication effort.

#### DOVER BOROUGH

The NYCRPD responded to a series of threats and implied threats to use explosive devices at the Dover Area Senior High School. CID unit members working in concert with school authorities have developed an effective surveillance program which appears to have resolved the problem.

An adult male remains in the York County Prison awaiting trial for the robbery of a 24-hour convenience store on the Route 74 corridor. The subject claimed to have a gun at the time of the robbery.

#### MANCHESTER TOWNSHIP

The NYCRPD arrested two subjects for a shooting incident at an all night diner on the Route 30 corridor in Manchester Township. During the exchange of over thirteen gunshots, numerous parked cars were hit by projectiles, but only one subject was struck by a bullet resulting in a bullet wound to the leg of the victim.

The NYCRPD investigation resulted in the recovery of a total of three stolen handguns, and over 32 grams of crack cocaine, and the arrest of two offenders with an extensive criminal history, including acts of violence.

This particular case was a challenging one and utilized various department resources, including crime scene reconstruction, forensic evidence collection (including trace evidence analysis), ballistic studies, impression analysis, as well as chemical applications for blood-related evidence. Investigators used the Krimesite RUVIS system to

the scene and in areas of interest throughout the investigation. The use of this system allowed capture and production of digital images with a quality and clarity unavailable prior to this time.

This was just another NYCRPD continuation of applied techniques within the York County Criminal Justice Community. This case utilized each of the forensic technologies employed by the NYCRPD in a unified approach to forensic analysis of evidence. This approach was merged successfully with the analysis of data and major case management to present to prosecutors a case that is destined to result in a conviction.

Currently, both offenders are incarcerated in correctional or detention institutions one having entered a guilty plea to charges, and another awaiting trial.

The NYCRPD conducted the investigation into a "take over" style bank robbery at a bank located on the Route 30 corridor. As a result of the investigation two subjects were indicted on federal charges related to the same type of robberies in the New Jersey and Philadelphia Metropolitan areas, and a vehicle stolen in Philadelphia was recovered in the local area.

#### PARADISE TOWNSHIP

An 84-year old Paradise Township man was convicted of sex offenses related to the assault upon a 12-year old male at a Paradise Township campground. The defendant was convicted at trial and as sentenced to 14 years in a correctional institution.

A Hanover man awaits trial after he sold several bags of marijuana to a NYCRPD officer in a covert drug sales operation. The man drove to a local store on the Route 30 corridor and sold marijuana directly to the officer. At the time of his arrest the defendant told the officer "You lied to me - I am going to file a complaint". He is currently free on bail having been charged with a felony offense for possession with intent to deliver a controlled substance.

An adult male with no fixed address remains incarcerated after his arrest for a burglary of a township residence. The subject was arrested in Hanover after a follow up investigation and search of the residence of a friend. Several guns and a compound bow were recovered.

An ex-employee of a Paradise Township bar has been arrested for passing stolen lottery tickets taken from the bar. These tickets were identified and tracked to several cashing points where the suspect is observed on video redeeming the tickets. The subject awaits final court disposition of the case.

#### CONEWAGO TOWNSHIP

An undercover investigation by the NYCRPD CID unit resulted in the arrest of two Conewago Township men for conducting a fencing operation for stolen property. The NYCRPD operation was successful in that the subjects were arrested for numerous felony offenses, and property from a three county area was recovered and identified as stolen. As part of the operation officer's purchased a stolen handgun from one of the individuals. Both of these individuals entered pleas of guilt, and are free for "time served".

NYCRPD investigators conducted the investigation into the death of an elderly subject who was living a life of seclusion in a remote township residence. This individual was found deceased with a shotgun located near the body. Since the subject was rarely in contact with other individuals and was estranged from his family, he was dead for a period of at least ten days prior to the discovery of his body. This resulted in a complex multi-faceted investigation into the death, involving forensic entomology studies, ballistic studies, and networking with law enforcement agencies in a total of seven states. The NYCRPD was able to conclude with reasonable certainty the subject died as the result of a self inflicted gunshot wound.

A 47-year old resident was charged with felony receiving stolen property after a search warrant was served at his residence. During this warrant service stolen tools were recovered from throughout the York County area, including tools stolen from a burglary scene in Dover Township.

Two York County men were arrested following a report concerning what appeared to be a theft of a construction vehicle. NYCRPD CID unit members conducted a follow up investigation into a report taken by NYCRPD Patrol Officers during the overnight shift. This report dealt with a suspicious vehicle last seen towing a skid loader on a trailer. A potential location of the theft was identified and the victim made aware of the theft, as this was ongoing the vehicle was observed in an isolated location near a farm outbuilding. While CID members maintained surveillance on the residence and construction vehicle a search warrant was obtained. The vehicle valued in excess of \$20,000 was recovered and returned to the owner. This case is awaiting final court disposition.

#### NORTH YORK BOROUGH

The NYCRPD arrested a subject associated with the April 7, 2006 homicide of a North York resident. This was determined to be a drug related slaying and a suspect was in police custody within four hours of the shooting. The defendant remains housed in the York County Prison awaiting trial in the spring of 2007.

Two room mates were involved in a struggle on the third floor balcony of a North York apartment house. During the course of the struggle one of the subjects was pushed from the balcony and plunged to the sidewalk, sustaining life threatening injuries. The NYCRPD arrested a 25 year old North York resident for numerous felony offenses related to the crime. The subject is currently free on bail awaiting final case disposition.

A bar fight led to the sidewalk stabbing of a subject in the 900 block of North George Street, the NYCRPD arrested numerous adults for felony related offenses. The subjects involved have entered various pleas for their involvement in the crime.

The NYCRPD arrested a 30-year old North York resident for attempting to lure a 14-year old female into his house. A CID Unit investigation led to charges being filed against the offender. When the subject was arrested he was found in the home viewing pornography depicting sex acts with females dressed to simulate teen age girls. This offender remains in the York County Prison awaiting trial.

#### FRANKLIN TOWNSHIP

Investigators assisted outside law enforcement agencies investigating an armed robbery of an elderly female outside of a business in Cumberland County. The alleged person responsible for the acts was a resident of Franklin Township. Upon completion of the extensive investigation the subject was arrested without incident and a search warrant was served upon the apartment where the individual resided. This subject is in the custody of the Cumberland County Prison awaiting trial.

A 27-year old Mechanicsburg man was arrested for the burglary of a Franklin Township apartment building. The arrest followed a several month investigation and identification of the subject selling property at a York pawn shop. The subject is a drug abuser and is currently cooperating with investigators. The subject is awaiting trial in connection with the case.

#### JACKSON TOWNSHIP

A 44-year old man was arrested in connection with the sexual abuse of a female under the age of 12 in an on-going investigation. The subject fled the area to Arkansas and was apprehended with the assistance of the United States Marshall's Office. The defendant has been held for trial and is awaiting judicial disposition of his case.

A Thomasville area man is currently incarcerated following his arrest for a commercial burglary at a large local indoor market. The subject was arrested after an investigation identified the subject as being the same person captured on digital surveillance systems, in addition to the defendants arrest on felony burglary charges, his 20-year old girlfriend was arrested for hindering apprehension and obstruction of the investigation. Both have entered guilty pleas.

NYCRPD investigators are continuing the investigation into a commercial burglary along the Route 30 corridor. Suspects have been identified and property recovered from the burglary in a related drug investigation. This active investigation is expected to be cleared with arrest(s) as time progresses.

The investigation continues into the hit and run death of a pedestrian walking along U.S. Route 30 in the early morning hours of January 6, 2005. This investigation required NYCRPD investigators to conduct detailed forensic examinations on approximately nine vehicles. Investigators interviewed over 200 persons attempting to follow up on all available information.

Investigators also drove to the State of South Carolina, where a suspect was interviewed and ultimately extradited to the Commonwealth on a felony warrant for unrelated charges. The case is still ongoing with a secondary battery of DNA testing being conducted. Investigators continue to work on this case in order to bring the perpetrator to justice.

## **SUPPORT SERVICES DIVISION**

### Records Section

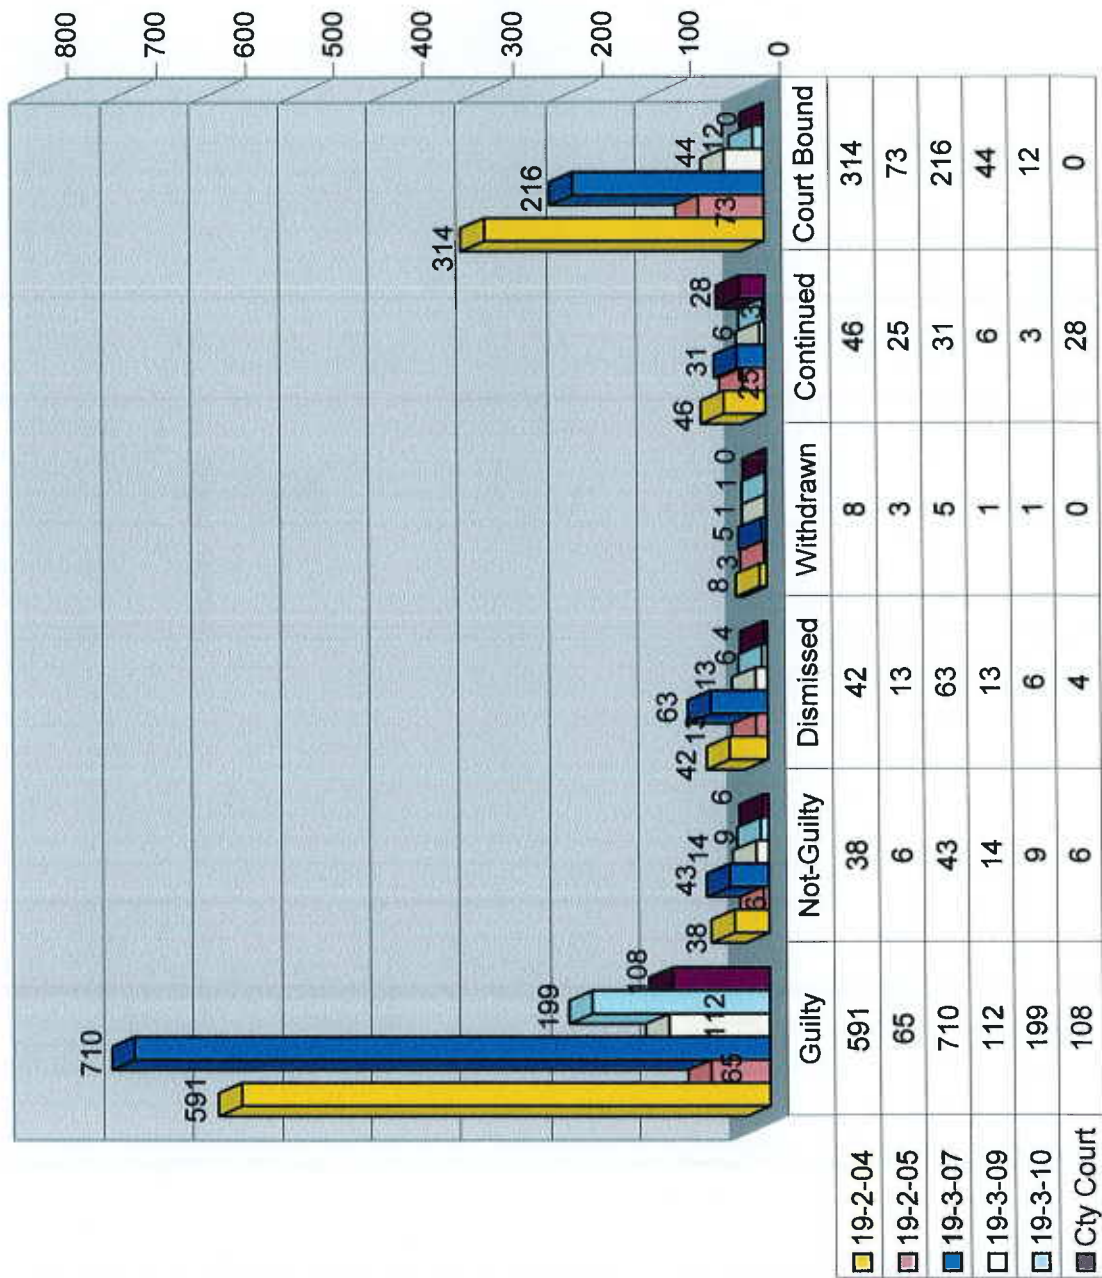

The primary responsibility for gathering, compiling and disseminating information lies with the Records Section. A Corporal (who supervises the civilians) and three civilian employees staff this section. The role of the Records Section is to insure and coordinate the rapid and orderly flow of information between the various components of the police department. One of the many integral functions is to provide data entry into the automated information system. The members also provide other varied services, including the greeting of all visitors to departmental headquarters and processing all insurance or other outside requests for information. The staff assigned to Records processed nearly one million records in 2006.

The information from the automated database continues to be vital in many tasks essential to department effectiveness and efficiency. These tasks include identification of crime patterns and trends, providing information to assist in the scheduling and distribution of manpower and the cohesive exchange of information with other agencies for the solution of crime.

### Court Disposition Report

The department continues to enjoy a fair modicum of success as we prosecute before the District Justices. For example, during 2006, 2,858 defendants exercised their Constitutional Option to a hearing. At the District Court level, 86.0% were found guilty in summary (traffic and non-traffic) cases or bound over to County Court for misdemeanor and/or felony cases. At the York County Court of Common Pleas, the department achieved a 74.0% conviction rate. The Board should know that the Northern York County Regional Police Department has no accurate barometer to determine how many misdemeanants and/or felons were channeled to diversionary programs such as ARD and other non-adjudicated programs. That figure, by our estimate, may be as high as 25% of all cases sent through the Court of Common Pleas.

**Chart V - Court Dispositions**

**Types of Dispositions**

## Citizen Satisfaction Survey

During April 1991, the Department began a "Citizen Survey" questionnaire process whereby randomly selected citizens were asked to evaluate the services provided and the degree of their satisfaction with those services. The questionnaires are purely subjective in nature consisting of eleven yes/no questions. Any questionnaires returned unanswered or marked "N/A" were not used to calculate a response for that question.

The Records Section, in concert with the CPO Unit, mailed out 444 questionnaires during 2006 and has had a response rate of 30.41%. The results as a whole indicate an "excellent" rating from the citizens polled. A recap of the Citizen Satisfaction Survey is as follows:

1. Did the officer arrive in a reasonable amount of time?

Yes - 94.07%      No - 1.48%      N/A - 4.44%

2. Did the officer appear to know his/her job?

Yes - 94.81%      No - 1.48%      N/A - 3.70%

3. Did the officer act as if you were wasting his/her time?

Yes - 5.93%      No - 92.59%      N/A - 1.48%

4. Did the officer resolve the problem to your satisfaction?

Yes - 71.85%      No - 11.11%      N/A - 17.04%

5. Was the officer polite and considerate?

Yes - 97.04%      No - 1.48%      N/A - 1.48%

6. Was the officer neat and clean?

Yes - 94.81%      No - 0.00%      N/A - 5.19%

7. Were you treated with respect?
- Yes - 97.04%      No - 1.48%      N/A - 1.48%
8. Did the officer express concern about your problem?
- Yes - 87.41%      No - 7.41%      N/A - 5.19%
9. Overall, were you satisfied with the action of the police?
- Yes - 88.15%      No - 8.89%      N/A - 2.96%
10. Do you have confidence in the Northern York County Regional Police Department?
- Yes - 92.59%      No - 5.19%      N/A - 2.22%
11. Do you feel safe in your community?
- Yes - 78.52%      No - 14.07%      N/A - 7.41%

## Training

We continue to emphasize training. To that end, we were able to offer 3,708 hours during 2006 compared to 2,980 hours during 2005. Our average officer received just more than 79 hours this year. It should be noted that some received more and some less.

We offered training to both uniform and non-uniform personnel in over 55 separate courses of study. Some of the training attended during 2006 was:

- Alert Users Group
- Child Passenger Safety Technician
- Collision Investigation Technical Analysis - Level Two
- Counter Terrorism Strike Task Team
- CPR Certification
- District Attorney Update Seminar
- Drug Task Force Training
- EVOC - Police (3-day)
- EVOC Updates
- Excel Software - Part II
- FATS
- FATS Instructor
- Fall Firearms Qualification
- Field Training Officer
- Forensic Interviewing of Sexually Abused Children
- Gang Intelligence
- Hazardous Materials Awareness
- Hiring and Background Investigations
- IAAP Pennsylvania Division Educational Conference
- Incident Command 100
- Incident Command 200
- JNET Certification
- JNET County Integration Seminar
- Law Enforcement Carbine
- Law Enforcement Rifle
- LiveScan/CPIN/CNET/AFIS Seminar
- MAGLOCLN - Follow the Money
- MAGLOCLN - Information Sharing Conference
- MAGLOCLN - Investigating Communication Devices
- Managing Change & Creating Opportunities for Success
- Mastering Quickbooks
- MCSAP Certification
- MDC Certification
- Mechanics of Arrest
- Metro User Conference
- MPOETC Mandatory In-Service Training
- National Incident Management System
- New Criminal Complaint Form
- Notary Training
- NYCRPD Computer Familiarization
- OC Aerosol/Special Impact Munitions
- PA Chief's Conference
- PA Crime Prevention Officer Seminar
- PA UCR Seminar

Pandemic Influenza Summit  
Pepper Spray  
Police & Minority Community Relations  
Police Shotgun  
PR-24 Certification  
QUAD (Quick Action Deployment) Training  
Range Safety Officer Instruction  
Responding to Allegations of Racial Profiling  
South-Central Crime Prevention  
Spanish I for Cops  
Spring Firearms  
STOP Unit Protocol Domestic Violence  
Take Control of Technology

### Technology/Equipment Acquisitions

We believe that, in part, we are able to do what we do with fewer officers than the norm because we work "smarter" whenever we can. Because the Board has been supportive and because of grants received, we have made several technological strides forward during 2006.

Some of the new and innovative equipment we received and/or built upon during 2006 includes:

1. Acquired K21000 Police Motorcycle
2. Bullet-Proof Vests - US Dept of Justice Grant
3. New cell phones with PTT Technology
4. Upgraded Carbines from Car 40 to Olympic Arms GL 40
5. Acquired HazMat Protective Equipment from Southwestern PA Terrorism Task Force

Photo Courtesy of Dave Lash

## CONCLUSION

In 2006, we handled 26,677 calls, 8007 more than 2005 for a 3.12% increase. Five municipalities increased and three decreased. The most dramatic increase is Manchester Township (+ 474 calls) and the most dramatic decrease is Jackson Township (- 159 calls). A breakdown of our overall jurisdiction and individual municipal activity appears on Table VII.

**TABLE VII**

### CALLS FOR POLICE SERVICE

When we consider the workload and the demands placed upon our staff, credit must continue to be directed to our individual members. Without question, the personnel associated with the Northern York County Regional Police Department are exceptional! As the studies have indicated, they do more work with less manpower, at less cost, when compared to others. As evidenced by the most recent 1992 study finding, a savings of over \$800,000 annually. It is through their efforts that the Department continues to provide quality service and at the same time, receive recognition that, to date, has been a model for other organizations.

In order to continue to be able to do this, it should be realized that continued support and direction from the Board of Commissioners is imperative. On behalf of all the members--sworn and civilian alike--we are proud to have been provided the opportunity to serve our communities throughout 2006!!

Respectfully submitted,

CARL A. SEGATTI  
Chief of Police

sjg

**CAVEAT:** Although the year-end report is historically submitted and signed by the Chief of Police, it clearly represents the efforts of others. To wit, this report was generated with the assistance of several members of the department, including Lt Bollinger, Lt Bentzel, Cpl Burchfield, Sergeant Steffen, Officer Allen, Ms. Maughlin, Ms. Stare, and Ms. Wales.

Special recognition should be offered to Ms. Grim and Ms. Maughlin. Without Sonya's "cheerful" tolerance during rewrites and Lisa's "yeoman's work" in pulling together statistics from several databases, this report would not have been possible!
