TO: CHAIRMAN AND MEMBERS OF THE NORTHERN YORK COUNTY REGIONAL POLICE BOARD OF COMMISSIONERS

FROM: CHIEF CARL A. SEGATTI

SUBJECT: ANNUAL REPORT 2007

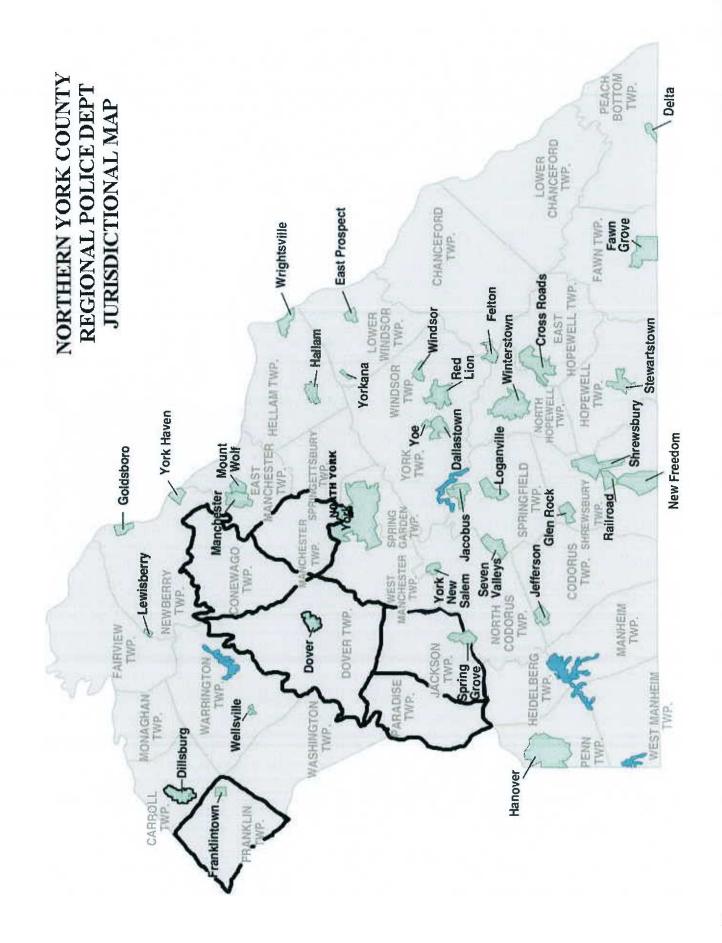

### INTRODUCTION

I would like to take this opportunity to highlight some of the major issues that presented themselves during 2007. You will find detailed accounts of activities throughout this report.

Each successive year continues to add challenge! This year, our Department continued to provide services to eight municipalities, the Townships of Dover, Manchester, Paradise, Conewago, Franklin, and Jackson and the Boroughs of Dover and North York.

The governing body (the Commission) is comprised of one elected official from each municipality. As such, Mr. Duane E. Hull represented Dover Township; Mr. Eric J. Van Dyke represented Dover Borough; Mr. John D'Ottavio represented Manchester Township; Mr. Lance Biesecker represented Paradise Township; Mr. Donald Knouse and Ms. Lois Leonard represented Conewago Township; Mr. Dennis Betz represented North York Borough; Mr. Larry Lambert and Mr. Donald Lerew represented Franklin Township; Mr. David Brown represented Jackson Township. Mr. Joseph Rudolf from Reed Smith LLP in Philadelphia, PA represented our department and commission as solicitor. Kochenour, Earnest, Smyser, and Burg conducted an audit of our financial records.

These eight municipalities together encompass 145 square miles or 15.9% of the total landmass for York County. In accordance with generally accepted population figures, service is provided to about 62,023 citizens, which means that the Northern York County Regional Police Department serves more than 1 in 7 York County residents. The population, by municipality, is Dover Township -20,248, Dover Borough - 1,925, Manchester Township - 16,512, Paradise Township - 3,931, Conewago Township - 6,416, North York Borough - 1,657, Franklin Township - 4,809, and Jackson Township - 6,525.

### STAFFING

### Units of Service

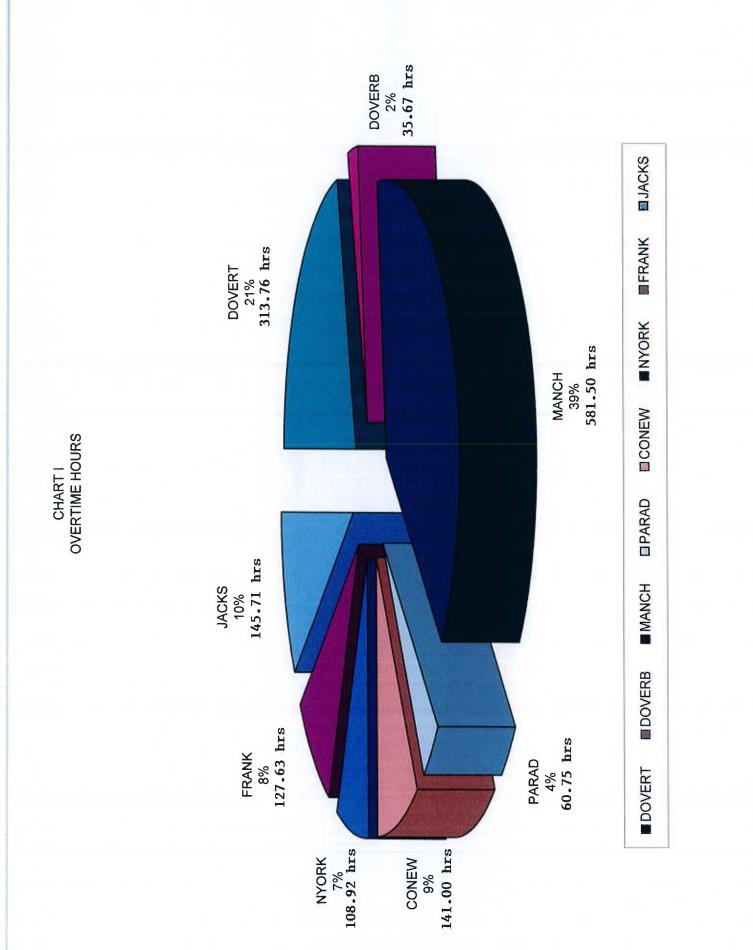

In keeping with the dictates of the "Articles of Agreement", municipalities purchase time by using a "unit of service" concept. Units are currently measured by a formula of 10 hours equaling one unit. Time is monitored in fifteen-minute increments on a daily, weekly and annual basis. This year, the Department managed 95,680 hours of service. The municipal breakdown of time is depicted on Table I.

	HOU	BALANCE				
MUNICIPALITY	WEEK	YEAR	HOURS	PE	RCENT	
DOVER TOWNSHIP	575	29900	- 8.72		.029	
DOVER BOROUGH	65	3380	+ 2.13	+ +	.063	
MANCHESTER TWP	630	32760	- 13.87	-	.042	
PARADISE TWP	100	5200	- 2.81	-	.054	
CONEWAGO TWP	150	7800	+ 9.41	. +	.121	
N YORK BOROUGH	80	4160	+ 4.38	K +	.105	
FRANKLIN TWP	75	3900	+ 6.19	) +	.159	
JACKSON TOWNSHIP	165	8580	+ 1.65	5 +	.019	
NYCRPD	1840	95680	- 1.64		.002	

### TABLE I MUNICIPAL UNITS OF SERVICE

In addition to the unit time, another 1,515.94 hours of overtime was worked throughout the year. This was 148.69 hours more than last year. This overtime information is depicted on Chart I.

Also, several other private overtime duty details were completed for a total of \$39,222.67/509.50 hours. This time is in addition to, but not included in, Table I or Chart I.

2007 Total Hours = 1514.94

4

### Personnel

Twenty-one (21) members of the Department missed no sick time during 2007. Among these would be Lt Bollinger and Lt Bentzel, Sgts Gearhart, Wasilko, and Lash, Cpls Burchfield, Blazosky, Foust, Anderson and Gladfelter, Officers Brininger, Godfrey, Haller, Hartley, Kulak, McGarvey, Migatulski, Pague, Tome, and Ms. Mummert along with myself. Many of these members have not missed a day in years. The sworn members missed an average 3.65 days this year compared to 2.80 last year. The non-sworn member average was 4.44 days compared to 10.19 days during 2006. Because the department's members (by and large) are a fairly healthy group, we were awarded a rebate of \$116,073 by our health insurance cooperative.

During the year, seven (7) workers compensation claims occurred. One officer was exposed to a patient with HIV, two officers were injured while making arrests, another officer was injured while on a domestic call, two officers were bitten by dogs, and one officer was injured chasing a suspect.

Department members received 46 letters of commendation from citizens this year. This is 1 less than 2006. In addition to the citizen commendations, the Chief and the Board recognized many officers for the fine work they did throughout 2007.

The Department received and investigated 3 conduct complaints in 2007. The conduct complaints arose as a result of an officer being late after being warned three times and an officer failing to honor a court subpoena after being counseled and warned previously. In these two incidents, the officers were suspended for one day each. Eight other infractions occurred that resulted in discipline less than suspension. Those infractions involved traffic accidents, reporting late for duty and other missed district court appearances.

### FLEET REPORT

During 2007, the department deployed 20 traditional patrol cars and 2 special services crime scene vehicles. In addition, the fleet includes six 4-wheel drive units-three Ford Explorers, one Jeep Liberty, one Jeep Cherokee, and one Chevrolet Blazer. Not included in this total are a Kawasaki KZ 1000 motorcycle and a Honda motor scooter. These units are occasionally used for parade and other traffic or crowd control assignments. Two speed control trailers and a trailer used to transport Officer Dorothy are also listed in the fleet inventory.

Six (6) vehicles were sold in 2007 at auction for a total of \$26,000. These vehicles brought an average of \$4,333.33 with an average mileage of 99,775. The amount each vehicle sold for and their description (year, make, model, mileage) are as follows:

•	2001	Jeep	Cherol	cee	-	113,598	miles	-	\$2,500
•	2004	Ford	Explor	rer	-	140,603	miles	-	\$3,800
٠	2004	Ford	Exploi	rer	-	113,598	miles	-	\$4,800
•	2004	Ford	Crown	Victoria	-	118,177	miles	-	\$5,900
•	2005	Ford	Crown	Victoria	-	112,174	miles	-	\$5,600
•	2005	Royal	Enfie	eld MC	-	500	miles	-	\$3,400

The fleet traveled 606,845 miles during the course of the year. We consumed 46,294 gallons of fuel for a fleet fuel average of 13.12.

In completing the various tasks and functions associated with the delivery of police service, the department traveled 606,845 miles during 2007. This is a decrease of 4,300 miles compared to 2006. We experienced 4 accidents this year as a result of officer culpability. Each of these officers (4) met with the Operations Lieutenant for "non-formal" discipline. The average cost per crash was \$261.85. Our overall record during 2007 was good. We will do everything we can to improve during 2008. We continue to try and improve our accident record by participating in EVOC (Emergency Vehicle Operations Course) on a regular basis. It is interesting to note that every minute of every hour of the year a Northern York County Regional Police Patrol Unit was moving throughout our communities. Therefore, as each of the 525,600 minutes of 2007 ticked away, your police officers traveled a mile every 1.15 minutes.

### FIELD SERVICES DIVISION Patrol Section

### Calls for Service

In order to understand the workload demands placed on the department, it is important to have a historical perspective. In other words, where have we come from and where might we be going. To that end, we offer the following ten-year recap of activities. Our base year for this purpose is 1998.

Year	# Calls	<pre>% Incr/Decr</pre>
1998	22,297	+ 5.10%
1999	21,701	- 2.67%
2000	22,600	+ 4.14%
2001	22,838	+ 1.05%
2002	23,125	+ 1.26%
2003	26,052*	+ 12.66%
2004	25,292**	+ 1.65%
2005	25,870	+ 2.29%
2006	26,677	+ 3.12%
2007	27,474	+ 2.99%

\*Includes Jackson Township figures from January, February & March 2003

\*\*The decrease in total calls from 2003 to 2004 results from the withdraw of Dillsburg Borough. However, participating members collectively experienced an increase.

This year our call load showed an increase of 2.99%. In 2007, we serviced 27,474 calls for police assistance, which are 797 more calls than the previous year. Therefore, our ten-year annualized average increase is 26.49%, which is a yearly average increase of 2.65%. A four-year review of this information is depicted on Chart II.

At this point, we will discuss, in some detail, the 27,474 calls serviced. As you review this information, it might be beneficial to understand how authorities look at police activity. "Experts report (and authorities generally agree) that of all the calls received for police assistance, approximately 20% will be "Criminal" in nature and 80% will be "Service" in nature". Our figures indicate that 15.08% (4,142) of our total calls (27,474) were criminal in nature and 84.92% (23,332) were service in nature. Therefore, we appear to be experiencing a less than average amount of criminality and a higher than average amount of service activity in our jurisdiction when compared to the norm. A breakdown of our total activity has been charted in five general areas. Calls that are criminal in nature as defined by the Uniform Crime Report are a combination of 1,265 Part I offenses and 2,877 Part II offenses. Calls that are service in nature are a combination of 1,781 traffic accidents investigated, 407 ordinance violations and 21,144 incidents that have not been classified as criminal in nature and may best be described as service calls.

### Activity

The Field Services Division, Patrol Section issued 11,804 traffic citations this year. This is an increase of 420 compared to 2006. For historical reference, our traffic enforcement index has, in the past years, moved both higher and lower. To wit, the enforcement index for 2004 was 23.42, then it increased to 29.04 in 2005, and then it increased to 33.48 in 2006. In 2007, the index increased to 35.45. The Board should know that the enforcement index is determined by dividing the number of injury/fatal accidents into the number of citations issued-- (11804  $\div$  333 = 35.45). An optimum enforcement index is 10 to 20 citations for every injury accident according to authorities in the field.

In addition to the 11,804 citations, officers issued 2,680 written warnings, down from 2,950 last year, 1,393 faulty equipment cards, which is down from the 1,813 issued in 2006, 386 parking tickets, down from 520 last year and 1,672 non-traffic citations, up from 1,513 last year. Also, 134 abandoned vehicle notices were issued along with 65 parking warnings. Therefore, patrol conducted no less than 16,462 traffic-related investigations in 2007 or more than 45 per day, on average, or almost 1.88 each hour of every day. None of this activity is classified as a reportable case and, therefore, is not tallied in the call-load figures expressed elsewhere on this report. Again, the Board should understand that this is self-initiated activity and not counted as a call or calls.

In 2007, 296 persons were charged with "driving under the influence", which is more than the 278 DUIs effected in 2006. Statewide, in 2006, 50,587 drivers under the influence were charged, which is 406.6 per 100,000 of population. Based on that statistic, our rate, in relation to our population, should be 183 DUI arrests, where, in fact, we are about 113 more than that ratio. Within the Commonwealth, there are a total of 25,318 full-time police officers. Throughout the state, each police officer makes more than two DUI arrests per year (2.00 arrests per officer per year\*). Our 47 police officers (based on the 296 DUIs we arrested in 2007) arrested 6.30 DUIs per officer. Our men arrested 3.15 times as many intoxicated drivers as did their counterparts across the state. Again this year, the Northern York County Regional Police Department finished sixth in police departments in the Commonwealth for DUI Enforcement.\*\* We finished ahead of many large agencies that are more than double/triple our size, such as Erie, Altoona, Harrisburg, Easton, Johnstown, and Lancaster. Needless to say, no department in central Pennsylvania affected the number of DUI arrests that the Northern York County Regional Police effected. Our 47 police officers averaged 6.30 drunken drivers per officer. The majority of these arrests occurred between midnight and 3 a.m. with most of the arrests occurring after 0200 hours.

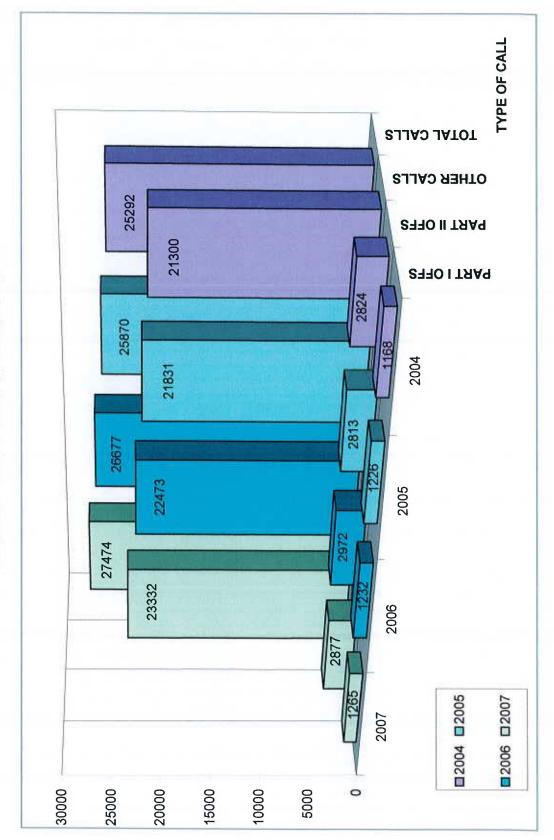

\*Figures for statewide averages based on the most current UCR Data, which is 2006. Our arrest figures are based on 2007 data.

\*\*Source: The PA DUI Association Newsletter

There were 86 drunk drivers involved in motor vehicle accidents, which reflect 29.05% of the total drivers charged with DUI. Of the 296 people arrested, 228 or 77.03% were male and 68 or 22.97% were female. Those arrested for DUI, on average, had a blood alcohol concentration of .228% or more than 2.85 times the legal limit. The highest blood alcohol reported in 2007 was .374% or 4.68 times the legal limit.

### Warrant Activity Report

In a 12-month period during 1995/1996, the Department served 365 warrants or 1 per day. Because of municipal concerns expressed by the Board of Commissioners, a concerted effort was initiated during the last several years to increase the number of warrants served by the department. In 2007, the department served a total of 722 warrants or almost 2 warrants per day. Included in this total were 641 summary warrants, 18 misdemeanor warrants, 3 felony warrants, and 60 bench warrants.

## **CALLS FOR POLICE SERVICE**

CHART II

10

### Community Police Unit

The "Community Police Unit" presented a total of 59 programs in 2007, reaching out to over 4,000 people. Of these, 20 programs were presented to our local schools and more than 3,000 students were addressed through a variety of assemblies and in-class seminars. These programs ranged from personal safety issues to drug awareness. Also, the CPO Unit hosted 17 civic programs with 1,500 persons in attendance. There were 56 child car seat checks completed by our certified car seat technician.

In addition, the unit has also been involved with community concerns and activities with everything from problems with traffic flow and speeding motorists to the coordinating of benefit runs, parades and block watch events. The CPO instructed four classes in "Coaching the Mature Driver" this year involving 61 participants, age 55 and older. Throughout the history of the "Mature Driver" classes, the CPO unit has taught over 500 "students" this defensive driving program. The unit was also asked to participate in "Ag Progress Days" held at Penn State University. This is a 3-day event in which we did several presentations on "Farm Equipment on the Roadway" to reach out to the farming community.

The Citizen Satisfaction Surveys, which we will discuss later in this report, are an additional tasks assigned to the CPO Unit.

"Officer Dorothy" was utilized in 22 programs at the schools and at local civic events. Several donations were received throughout the year for the "Officer Dorothy" Program, totaling \$4,588.24.

The Northern York County Regional Police Department continues the practice of providing students from throughout the community the opportunity to experience a "hands on" learning environment in the arena of the disciplines of both science and criminal law through the second annual "Officer Dorothy Forensics Camp" funded by the Dorothy Kling Endowment Fund. The program allowed the NYCRPD to reach out to 15 students from local high schools to interact with officers from the CID and Field Services Unit. These officers provided instruction and one-on-one interaction in an overview of the crime scene evidence identification, preservation and collection practices, and students were exposed to the entire array of tools employed by the NYCRPD to effectively process crime scenes and document the scene for effective courtroom presentation.

The students and the involved officers all benefited from the interaction and instruction process. The students were provided lunch and an instructional package of assorted materials donated from the business community.

### Serious Crime

The 1,265 reported crimes classified as Part I Offenses under the FBI Uniform Crime Report System are the most serious crimes. Serious crime was up 2.68% (33 incidents) in our entire jurisdiction. Part I crimes include Homicide, Manslaughter, Rape Robbery, Aggravated Assault, Burglary, Theft, Auto Theft and Arson. Serious crimes were reported to municipalities numbering 352 cases in Dover Township (67 cases more than last year), 74 cases in Dover Borough (5 cases more than last year), 320 cases in Manchester Township (91 cases less than last year), 47 cases in Paradise Township (1 case more than last year), 176 cases in Conewago Township (26 cases more than last year), 85 cases in North York Borough (1 case less than last year), 60 cases in Franklin Township (23 cases more than last year), and 151 cases in Jackson Township (3 cases more than last year). Our overall Department clearance rate for these crimes is 41.26% compared to 32.22% in 2006. The Statewide clearance average in 2006 was The County average in 2006 was 33.5%.\* 27.6%.

\*Figures for state and county averages based on the most current UCR Data, which is 2006.

A breakdown of the Part I crimes over three years reported to our Department can be viewed on Table II.

CRIME CLASSIFICATION		ORTED 5/2006		2006/2007 INCREASE/DECREAS				
HOMICIDE/INVOL MANS	0	1	0	- 1				
RAPE	2	2	1	- 1

ARSON	1	3	7	+ 4				
NYCRPD	1226	1232	1265	+ 33				

**TABLE II** PART I - CRIMES

A formula is available to numerically chart or indicate a municipality's crime rate in finite terms. The rate is determined by dividing 100,000 by a municipality's population, times the Part I reported crimes. The overall regional jurisdiction experienced an annual decrease (-4.10%) in the crime rate. Municipal crime rates appear for review on Table III.

MUNICIPALITY POPULATION		I CRI 2006/		2007 CRIME RATE	2006/2007 INCR/DECR
DOVER TWP 20,248	282	285	352	1738.44	+ 239.31

NYCRPD 62,023	1226	1232	1265	2039.57	- 87.14

TABLE III MUNICIPAL CRIME RATE

### Less Serious Crime

The 2,877 reported crimes, classified as Part II offenses under the FBI Uniform Crime Report System <u>are less serious crimes</u>. Part II crimes decreased 3.20% or 95 incidents compared to 2006. Our overall department clearance rate for these crimes was **76.09%** compared to 73.28% in 2006. The state Part II average in 2006 was 59.0% and the County average was 65.5%.\* Our grand total clearance rate for both Part I and Part II crime was **65.45%** compared to 61.25% last year. A three-year review of these crimes appears on Table IV. (\*Figures for state and county averages based on the most current UCR Data, which is 2006.)

TABLE IV PART II CRIMES

\* DUI arrests where drugs are the cause of intoxication are classified by the higher UCR value attached to drug usage. During 2007, eighteen (18) "drivers under the influence" were found to be under the influence of drugs and, therefore, charged with DUI (Drugs) and, as a result, removed from the population of traditional "drivers under the influence" for accurate reporting.

\*\*See Appendix "A" (all other classifications under UCR; does not include township/borough ordinances) CHART III

# PART I AND PART II OFFENSES CALL HISTORY

### Service Calls

As mentioned earlier, national averages indicate that approximately 80% of all calls received by Police will be "service" in nature. We found ours to be 84.92% this year. Municipalities as shown on Table V received these 27,474 calls.

(			The second second			1			
	TOTAL CALLS			SERV	VICE CA	& OF TOTAL

	TABLE	V	
MUNICIPAL	CALLS	FOR	SERVICE

Because so much of what the department does is service in nature, we recently extrapolated the top ten (highest number in volume) "service calls" that we responded to in 2007. Those "service calls" are listed below in rank order and by frequency:

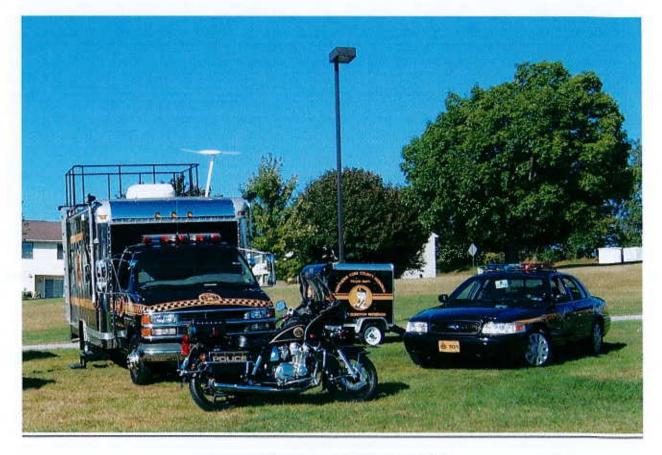

•	Assist fire, ambulance, and/or medic	2,669
•	Assist disabled motorist	1,028
•	Non-criminal domestic arguments	705
•	Request for civil intervention	523
•	Warrant services	472
٠	Assist other law enforcement agencies	446
٠	Non-criminal acts of harassment	304
•	Check welfare of persons	233
•	Property disputes	186
•	Non-criminal neighborhood concerns	137

### Alarms

Response to alarms is classified as a service call. After several municipal alarm ordinances were revised and fines were increased for false alarms, alarms, by and large, continued to decrease. However, this year, alarms increased by 5.96%.

In 2007, total alarm dispatches accounted for 1,638 of the total call load or 5.96%. Last year, alarms accounted for 1,452 of the total call load or 5.44%.

A municipal alarm overview, which compares the number of alarms to the total number of calls in each municipality, finds that we handled 276 or 3.65% in Dover Township, 42 or 3.28% in Dover Borough, 880 or 10.16% in Manchester Township, 28 or 2.42% in Paradise Township, 160 or 5.12% in Conewago Township, 45 or 2.69% in North York Borough, 52 or 4.30% in Franklin Township, and 155 or 5.52% in Jackson Township. The workload generated by alarms in the Support Services Section remains considerable due to the time-consumptive procedures for reporting, invoicing and the associated fiscal record keeping and payments to municipalities in accordance with the revised municipal ordinances.

### Vehicle Accidents

Accident investigations are also classified within the concept of a service call. We experienced an increase in the accidents we investigated this year. The 1,781 accidents reflect an increase of 79 crashes or 4.64% compared to 2006. Injury accidents investigated were 326 compared to 337 in 2006, for a decrease of 11. In addition, we investigated 7 fatal accidents (10 deaths) reflecting an increase of 4 or 133.33%. Alcohol related fatals this year totaled 5. (A municipal breakdown of this information is shown on Table VI.)

TABLE VI MUNICIPAL ACCIDENT ACTIVITY

CPL ANDERSON IN COMMUNICATIONS AREA OF SERVICE TRUCK Photo Courtesy of Dave Lash

CHART IV

### FIELD SERVICES DIVISION Criminal Investigation Section

The primary responsibility for follow-up investigations of serious crime is vested in the Criminal Investigation Section of the Field Services Division. This section is staffed with a Sergeant, who supervises three full-time investigators and an officer temporarily detached from Patrol.

The Detective Sergeant is responsible for the review of all criminal reports, supervision at all major crime scenes, staff review of all major criminal cases, liaison with other agencies regarding effective information exchange and coordination of investigative efforts, and preparing the Criminal Investigation Section schedule.

Other duties of the Criminal Investigation Section include:

- Assist the Patrol Division with fatal accident investigations
- Assist the Patrol Division with death investigations
- Serves as the system manager of the department's automated evidence management system—this includes tracking, retention, and transportation of evidence for laboratory testing
- Participation in crime prevention and reduction programs, which include working specialized details in areas where criminal activities are prevalent
- Assist the York County District Attorney Office Forensic Team in examinations involving advanced specialized forensic applications
- Process and presumptive analysis of evidence collected pursuant to criminal investigations
- Acts as a clearinghouse for the majority of automated fingerprint capture and digital imagery of persons charged with crimes
- Surveillance and specialized electronic video applications
- Perform polygraph examinations
- Maintaining evidence in a secure environment consistent with best handling practices for storage of evidence and property.

 The investigation and reporting of complex and time consuming investigations which require follow up function and dedication of time based assets.

In previous annual reports, note was given to the efforts made by the agency in the acquisition of forensic equipment and other specialized technical means used in the investigation of crime. These measures have paid dividends for the agency with increased identification of offenders by collection of trace evidence, as well as providing the maximum amount of evidence available for prosecutors in securing convictions. RUVIS is a technology which allows users to identify latent fingerprint impressions using localized UV light wave lengths, and a special viewing device. Images are captured digitally of the impressions which are then collected using various techniques. Advantages of RUVIS use include the ability to process a large area without use of powder or chemicals. This allows a faster more effective processing of crime scenes .This image depicts a RUVIS system as currently employed by the NYCRPD.

As a result of increased evidence and property collection, the NYCRPD has been among the first, if not the only, agency in the county to implement and utilize an automated evidence management system employing bar code technology. The evidence storage area has been reviewed and secure storage arrangements have been made to insure the highest level of security and review for evidence or property seized or stored by the department. In late 2007, a complete Evidence Room Inventory was successfully completed.

The efforts undertaken and the resultant professional growth of officers assigned to forensic evidence recovery has resulted in ability to address a wide array of specialized forensic situations including, but not limited to, bodily fluid identification, blood spatter, forensic light source applications, Krimesite RUVIS applications, chemical applications, presumptive testing of unknown standards, casting of impression evidence, and numerous other applications.

It has been noted by prosecutors from the York County District Attorney's Office that prospective jurors appear to have an expectation that law enforcement process evidence effectively. It has also been opined by prosecutors that the NYCRPD has the ability to meet and exceed that expectation on a level second to none, with effective forensic evidence collection, analysis, and detailed reporting of the investigator process. This image depicts images captured using the RUVIS system

In recent years, the agency has progressed from the ability to handle major crime scenes in a proficient manner to the level of advanced proficiency in all aspects of crime scene management. These abilities continue to pay dividends to the agency in identification of offenders and in the prosecution of offenders within the York County Criminal Justice System.

In 2007 there were two cases which prove to be illustrative of the use of technology to aid in investigation of complex criminal cases.

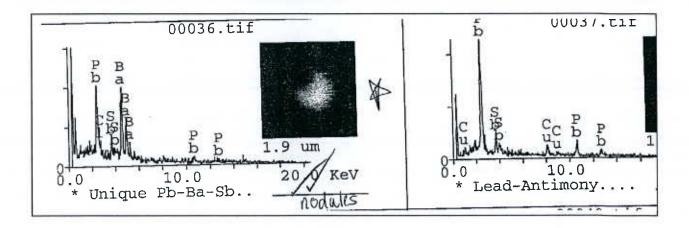

In the first scenario the NYCRPD responded to the scene of an attempted homicide / suicide. In this case there was a series of shots fired at uniformed police officers and then the suspect took his own life. By utilization of a newly acquired upgrade to existing technology the NYCRPD was able to provide an animated three dimensional account of the event from the first contact with officers until the completion of all critical events within the commission of the attempt upon the officer's lives, and the death of the perpetrator.

Maintaining and presenting evidence is essential in the life of a successful criminal prosecution. This includes marking and documentation of evidence for collection. This includes the firearm in this image below.

Capture of gun shot residue with advanced testing techniques indicated the frequency and distribution of the particulate matter was consistent with the shooting actions being committed by the perpetrator and definitively excluded officers from having fired their duty weapons. It is not only important for investigators to collect the evidence but also to have an understanding of what the evidence will indicate. In many cases this requires constant literature review to maintain awareness of the most recent information and techniques. The image below depicts a report detailing the analysis of a GSR SEM stub from a shooting investigation.

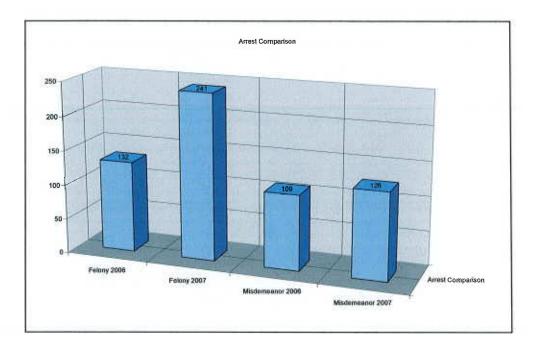

In a separate event under investigation by the NYCRPD there was a criminal homicide attempt upon the life of a female who had her throat slashed. A pair of gloves was located within a mile of the victim's residence. An unknown sample was collected and submitted for DNA analysis. The suspect in the case had a sample of DNA collected and sent for analysis and comparison. The testing results indicated that the samples **were identical**.

The CODIS data base was able to identify the source of the unknown sample, and it was determined the subject was a known murderer. This analysis in combination with other evidence serves to conclusively tie the suspect to the scene, and serves to validate the evidence collection and identification process as far as thoroughness and integrity.

During 2007, the Criminal Investigation Section investigated a total of 947 assigned cases and cleared 774 of the cases assigned. The Section's clearance rate is 81.73%. The Criminal Investigation Section submitted a total of 371 general incident reports and 3,854 supplemental reports. In addition, the Section conducted a total of 22 polygraph examinations, as well as cataloged over 1,400 evidentiary items. A total of 421 defendants were arrested during the year; this compares to a total of 241 defendants arrested in the previous year. This represents an increase of 57.24% persons charged. Felons arrested during 2007 total 295 as compared to 132 in 2006. The unit arrested a total of 126 misdemeanants for the year. This compared to 109 misdemeanants for the previous year. In addition to the figures listed for arrests above, a total of 52 nontraffic citations were issued by unit members. The year was filled with complex investigations requiring specialized data and crime analysis techniques, which were employed to assist in eventual identification and apprehension of offenders.

In the paragraphs that follow, the reader is provided an overview of cases handled within each municipality by members of the Criminal Investigations Section during 2007:

### DOVER TOWNSHIP

A 49-year old male who was enrolled as a scoutmaster has been charged with sex offenses related to the indecent assault of a teen age high school male, who was a member of his scout troop and was undergoing church related counsel by the scout master. The subject is free on bail awaiting trial.

A 25-year old male has gained national attention after being on a daytime television show discussing his relationship with his wife's 14 year old sister. The subject has been arrested for involuntary deviate sexual intercourse and associated offenses following the investigation into the sexual abuse the Dover Township female. This individual is currently free on bail awaiting trial.

Over 160 crimes were solved which formed a series of thefts from vehicles over a six month period of time, was resolved with the arrest of five individuals ages 18-25. This includes a series of vehicle thefts and in at least one case the arson fire damage of a vehicle, which was destroyed to prevent detection and arrest. All subjects are currently on bail awaiting trial.

Over 20 burglaries of construction sites were cleared in Dover Township, were resolved with the arrest of a York City resident who was employed with temporary agencies. This individual would work construction during the day, and at night, return to the home construction sites to remove copper, tools, and other construction materials from the builders or home owners.

### DOVER BOROUGH

The NYCRPD responded to a series of threats and implied threats to use explosive devices at the Dover Area Senior High School.

CID unit members working in concert with school authorities have developed an effective surveillance program. This joint effort later resulted in the arrest of a 14-year old female for felony offenses related to the issuance of a bomb threat at the Dover Senior High School. This juvenile remains in the care and custody of the York County Juvenile Probation Department, after being charged by NYCRPD investigators. The images depicts an actual threat written by the offender.

A 47-year old convicted sex offender free on bail pending appeal, was arrested for attempting to lure a 13-year old female into a vehicle on two occasions. The subject was stopped by NYCRPD patrol officers at 3 AM and represented himself as the natural father of the child. Investigation determined he was court ordered to abandon any custody or access to the child. The defendant was apprehended at 3 PM days later as he was attempting to meet the child at a Dover business, his car was packed with clothes and they were planning on leaving the state. The subject was arrested in the act of attempting to meet the child and was charged with felony offenses. He has entered a guilty plea and is awaiting sentencing on the charges. In addition he was held as a probation violator from Dauphin County. A Dover Township couple was arrested after an infant was flown to the Hershey Medial Center for treatment of multiple injuries. The male subject was under Court order not to be in contact with anyone under the age of 18 due to a past morals conviction. A 3 AM call to NYCRPD investigators resulted in the arrest of a subject for several felonies for injury to the five week old infant. His live in girlfriend was charged with offenses related to the endangerment of the child. The male is incarcerated awaiting trial and the female has entered a guilty plea, and awaits sentence. The infant is recovering from her injuries and is in placement in a foster home.

### MANCHESTER TOWNSHIP

The NYCRPD conducted the investigation into a "take over" style robbery at a motel and business located on the Route 30 corridor. As a result of the investigation three subjects were arrested on these offenses and on charges related to other robberies in the York Metropolitan areas, including several bank robberies.

The NYCRPD provided assets in the investigative task force formed to combat the increase in York County robbery cases . In addition crime analysis and a joint effort between the NYCRPD patrol and criminal investigation units resulted in an immediate decrease in the frequency of robberies in the NYCRPD jurisdiction.

The combination of highly visible patrol, aggressive follow up investigation and the arrest of multiple offenders made a marked impact on this crime category. A total of seven subjects remain in the York County Prison and are awaiting further legal process and face potential federal indictment for their roles in the series of violent robberies.

Two Cumberland County men remain in the Cumberland County Prison after their arrest in a series of robberies in York, Adams, Cumberland, and Franklin Counties. In the case investigated by the NYCRPD the subjects entered into the Rutter's Farm Store in the 2300 block of North George Street. They presented a black powder rifle with a scope and threatened the clerk, ordered the clerk to surrender the cash and fled the store. The subjects were arrested after a joint investigation with the Lower Allen Township Police Department. This example of inter-agency cooperation and rapport results in the arrest of two more violent offenders.

Two masked armed suspects enter an all night store as they begin their act of violence.

They threatened & robbed two female store clerks.

Both offenders are in prison awaiting trial.

A York Area business operator was arrested after numerous complaints as to the methods he used to conduct business. Investigation determined there was over \$300,000.00 in fraud for failure to complete jobs for which he was paid in advance, or poor workmanship.

As a result of the investigation over 90 victims were located in the greater York County area. The defendant remains incarcerated in the York County Prison awaiting sentencing for the crimes. The courts have accepted a plea agreement which also included restitution to the victims for the losses incurred. One of the areas of focus in this investigation was the victimization of the elderly and the enhanced provisions of the crimes code in dealing with increased penalties for defendants who victimize the elderly.

### PARADISE TOWNSHIP

An adult male with no fixed address remains incarcerated after his arrest for an armed robbery of a township convenience store. The subject was arrested in after a follow up investigation and continual pressure on the suspect to surrender. Upon surrender the suspect arrested and charged with multiple robberies, including a robbery of a Dover Borough convenience store. This individual would typically enter the store armed with a large butcher knife of machete. He would threaten the clerk, and flee with the cash from the register or safe.

When arrested, it was determined the subject had been released after serving a ten year prison sentence for robbery. He is currently in the York County prison awaiting court action.

A Paradise Township business operator and associates face multiple felony charges for crimes related to the operation of a business engaged in fraudulent business practices. The operator was charged with offenses including money laundering, insurance fraud, corrupt organization, fraudulent business practices and conspiracy in connection with his role in the failure to complete projects for which he was paid. This investigation is a complex financial investigation and has extended into over six contiguous states, as well as numerous counties throughout Pennsylvania. The defendants are free on bail pending further legal process.

### CONEWAGO TOWNSHIP

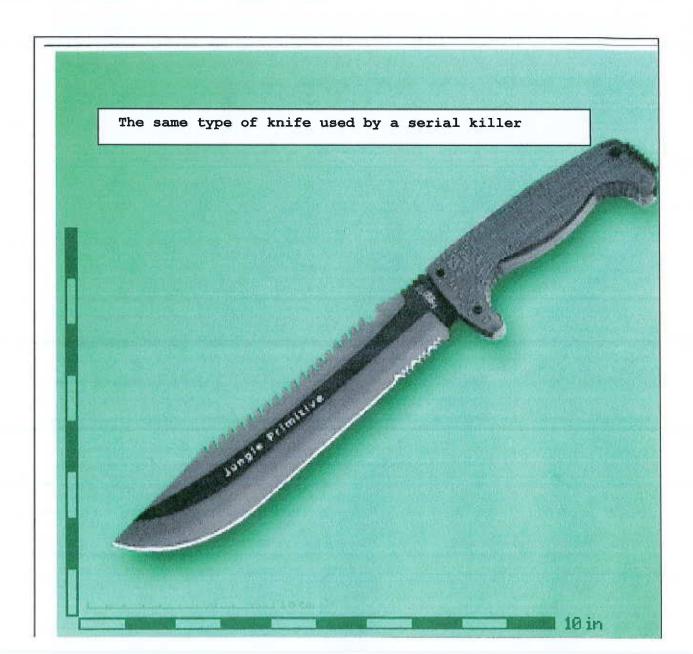

A total of five youths ages 13-19 were arrested for burglary and related offenses following an investigation into residential daylight burglaries in the township. These youths have admitted guilt and area awaiting further adjudication. The crime spree stretched over a several month period during the spring and summer and involved entry into approximately 6 buildings or dwellings.

Four local youths (ages 11-14) were arrested for arson and related offenses after investigation into the burglary of residences which were vacated and awaiting sale. The youths admitted their responsibility for the acts, and face restitution in excess of \$ 25,000.00

The NYCRPD continues the investigation into the activities of a long distance truck driver who has been linked to crimes in four states. This investigation illustrates cooperation between federal, state, and local law enforcement authorities in the identification and apprehension of violent offenders. The suspect is currently incarcerated in Massachusetts. This individual has been linked to a series of local offenses in Dauphin and York Counties, including the slashing of a female who was asleep on the couch in her family room. NYCRPD conducted an extensive investigation of the crime scene, part of which included forensic processing of trace evidence and scene documentation.

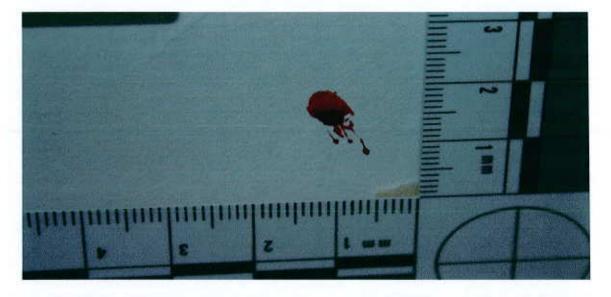

The suspect was arrested as he attempted to kill a teen age victim as she slept in her bed and was interrupted by the parents of the intended victim. Police in Chelmsford (MA) arrested the subject and later connected the subject to crimes in New Jersey.

As the investigation intensified, so did the connection of the subject to the Harrisburg and York areas by travel logs and other documents. This investigation is ongoing and involves the anticipated prosecution of the subject for offenses within the Commonwealth.

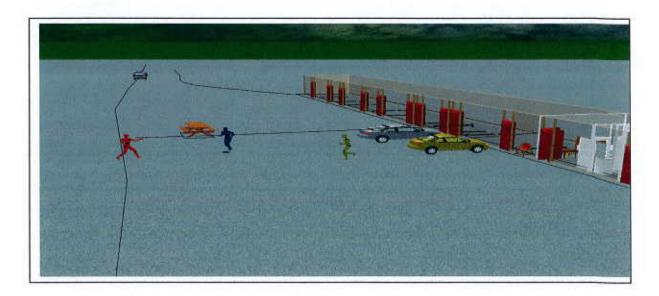

The image above depicts the same type of weapon used in the assault. This is the weapon which was purchased by the NYCRPD of the exact same type and manufacturer as the weapon used in the attempted murder. This weapon is currently being used to conduct a wound-weapon study to be used in court room testimony.

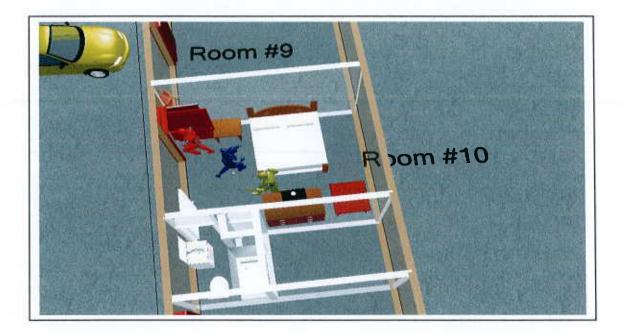

The image below depicts blood spatter patterns, which show directionality and force applications.

Two uniform police officers including a NYCRPD officer and the Hampden Township, Cumberland County Police officer he was assisting are again on patrol following a narrow escape from death.

As police were interviewing involved persons, a 19-year old male, fled and fired shots at police prior to placing his handgun to his head and taking his own life. One police officer suffered two bullet strikes. Fortunately the ballistic vests worn by the officers saved their lives. An in-depth investigation concluded there was no firing by the officers of their duty weapons and the subject took his life as part of an individual, pre-planned response to police investigation and intervention. The subject swore to others he "would never go back to jail - I will shoot it out with all police officers who try to arrest me."

### NORTH YORK BOROUGH

The NYCRPD arrested a subject associated with the April 7, 2006 homicide of a North York resident. This was determined to be a drug related slaying and a suspect was in police custody within four hours of the shooting. The defendant was tried and convicted of first degree murder in the York County Court of Common Pleas. The defendant identified as Thomas Lee Brown is currently serving a life sentence without parole in a State Correctional Institution. After the verdict was issued, numerous jurors were interviewed by the District Attorneys Office and remarked how they were impressed by the evidence presented by the NYCRPD. Particular mention was repeatedly made of the high degree of technology employed, and the follow up attention to every detail associated with the investigation. One juror even remarked "this was better than television".

CID Unit members assisted NYCRPD Patrol officers in a DUI checkpoint on North George Street which resulted in numerous drug arrests and other criminal violations. This included the apprehension of numerous parole violators. This operation was very beneficial in providing CID with "live" information from subjects interviewed as part of the operation, who were directly involved in other ongoing investigations.

Unit members conducted numerous drug related investigations and arrested several individuals for various drug related offenses, these offenders included both juvenile and adults. Enforcement efforts in this area are ongoing.

## FRANKLIN TOWNSHIP

A series of commercial burglaries at a business resulting in the theft of over \$20,000.00 in vehicles and other items was solved by the arrest of four juveniles. Unit members assisted the business owner in crime prevention measures and included an option of installation of temporary surveillance cameras in order to assist in the investigation. In this case the cameras were ordered and shipped to the NYCRPD for installation, but arrests were made in the interim period. The business owner remarked how he appreciated the efforts to assure his business safety. The juvenile offenders have been charged and are awaiting further disposition by York County Juvenile Authorities.

A series of thefts of high grade aluminum from a township business was resolved with the arrest of a subject who stole over \$ 30,000.00 in metals from the business. The subject was arrested following an analysis of tire impressions and video surveillance. The subject was apprehended and charged with numerous counts; the adult male offender has a drug addiction and is currently in jail awaiting trial. CID unit members investigated numerous residential burglaries in Franklin Township where the homes were targeted during daylight hours. As part of the response to the crimes, the NYCRPD was a member of a task force to investigate the crimes which occurred in over seven mid-state counties and two other adjoining states. A group of individuals was arrested for the offenses, including the actual burglars, and the support group of individuals selling and buying the stolen items. In this series of cases the loss in the NYCRPD jurisdiction alone was over \$125,000.00.

A 35-year old man awaits trial after his arrest for a shooting at a residence in Franklin Township. The defendant was arrested after he fired a hand gun at a subject during a struggle. This confrontation ensued after the home owner found the subject driving his vehicle in the driveway of the residence. The subject pointed the gun at the homeowner, who attempted to disarm the subject, during this attempt numerous shots were fired by the defendant. Fortunately there were no injuries associated with this incident.

### JACKSON TOWNSHIP

NYCRPD investigators arrested a Megan's Law offender for failure to register as required by law. The 39-year old male offender resided in a township mobile home park, and is currently incarcerated on a state parole violation and other charges related to the sexual abuse of a seven year old male.

A 28-year old male was arrested for offenses related to the sexual abuse of an 11 year old female. He is currently incarcerated awaiting trial.

A 41-year old Jackson Township man is facing charges related to the theft of a Toyota Tacoma Pickup truck. The truck valued over \$26,000.00 was recovered and after an investigation the man was arrested and is incarcerated on a parole violation while awaiting trial.

NYCRPD investigators arrested two adults in connection with the theft of copper and aluminum wire from an electrical substation, valued in excess of \$10,000.00. The subjects were charged after investigators identified the individuals who were scraping the materials at various York County locations.

A 35-year old man from Lancaster County is serving a term in the State Correctional Institution after he was charged with over 65 burglaries and thefts from homes under construction in North York Borough, Conewago, Manchester, Dover, Paradise, and Jackson Townships. This subject and his accomplices would enter homes under construction and remove copper wire, and other materials or tools. NYCRPD investigators targeted the subject after a lengthy investigation and determined that the defendant would work for a temporary employment agency during the day and be assigned to the job sites. After being paid for working at the sites during the day, he would return after hours and steal the wiring installed during the day as well as any tools left at the job site. Losses in this six month crime spree exceeded \$175,000.00

**SPECIAL SERVICES TRUCK** Picture Courtesy of David Lash

## SUPPORT SERVICES DIVISION

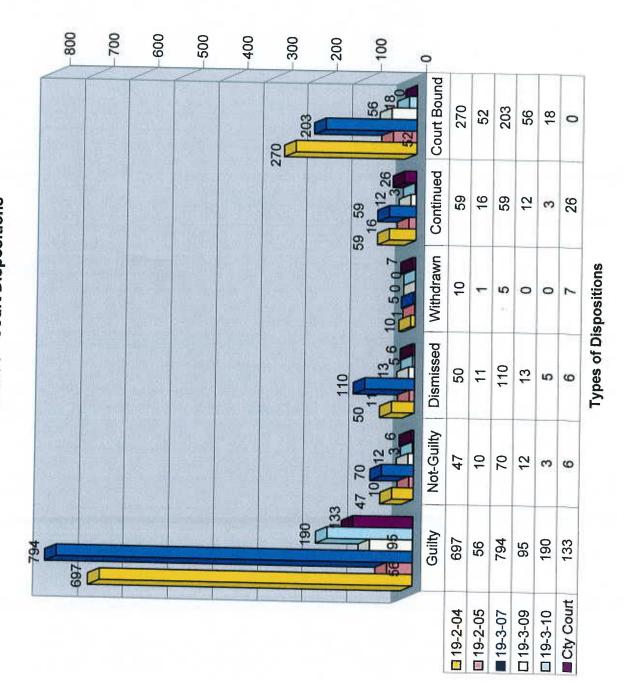

### Records Section

The primary responsibility for gathering, compiling and disseminating information lies with the Records Section. A Corporal (who supervises the civilians) and three civilian employees staff this section. The role of the Records Section is to insure and coordinate the rapid and orderly flow of information between the various components of the police department. One of the many integral functions is to provide data entry into the automated information system. The members also provide other varied services, including the greeting of all visitors to departmental headquarters and processing all insurance or other outside requests for information. The staff assigned to Records processed nearly one million records in 2007.

The information from the automated database continues to be vital in many tasks essential to department effectiveness and efficiency. These tasks include identification of crime patterns and trends, providing information to assist in the scheduling and distribution of manpower and the cohesive exchange of information with other agencies for the solution of crime.

## Court Disposition Report

The department continues to enjoy a fair modicum of success as we prosecute before the District Justices. For example, during 2007, 3,105 defendants exercised their Constitutional Option to a hearing. At the District Court level, 83.0% were found guilty in summary (traffic and non-traffic) cases or bound over to County Court for misdemeanor and/or felony cases. At the York County Court of Common Pleas, the department achieved a 75.0% conviction rate. The Board should know that the Northern York County Regional Police Department has no accurate barometer to determine how many misdemeanants and/or felons were channeled to diversionary programs such as ARD and other non-adjudicated programs. That figure, by our estimate, may be as high as 25% of all cases sent through the Court of Common Pleas. Chart V - Court Dispositions

39

# Citizen Satisfaction Survey

During April 1991, the Department began a "Citizen Survey" questionnaire process whereby randomly selected citizens were asked to evaluate the services provided and the degree of their satisfaction with those services. The questionnaires are purely subjective in nature consisting of eleven yes/no questions. Any questionnaires returned unanswered or marked "N/A" were not used to calculate a response for that question.

The Records Section, in concert with the CPO Unit, mailed out 448 questionnaires during 2007 and has had a response rate of 34.15%. The results as a whole indicate an "excellent" rating from the citizens polled. A recap of the Citizen Satisfaction Survey is as follows:

1. Did the officer arrive in a reasonable amount of time?

Yes - 93.46% No - 2.61% N/A - 3.92%

2. Did the officer appear to know his/her job?

Yes - 95.42% No - 1.31% N/A - 3.27%

3. Did the officer act as if you were wasting his/her time? Yes - 5.88% No - 90.20% N/A - 3.92%

4. Did the officer resolve the problem to your satisfaction?

Yes - 79.74% No - 8.50% N/A - 11.76%

5. Was the officer polite and considerate?

Yes - 92.81% No - 4.58% N/A - 2.61%

6. Was the officer neat and clean?

Yes - 96.73% No - 0.00% N/A - 3.27%

7. Were you treated with respect?

Yes - 93.46% No - 2.61% N/A - 3.92%

8. Did the officer express concern about your problem?

Yes - 88.89% No - 5.23% N/A - 5.88%

- 9. Overall, were you satisfied with the action of the police? Yes - 92.81% No - 6.54% N/A - 0.65%
- 10. Do you have confidence in the Northern York County Regional Police Department?

Yes - 93.46% No - 3.92% N/A - 2.61%

11. Do you feel safe in your community?

Yes - 78.95% No - 6.58% N/A - 14.47%

2007 FORD POLICE INTERCEPTOR Photo Courtesy of Dave Lash

### Training

We continue to emphasize training. To that end, we were able to offer 4,071 hours during 2007 compared to 3,708 hours during 2006. Our average officer received just more than 84 hours this year. It should be noted that some received more and some less.

We offered training to both uniform and non-uniform personnel in over 52 separate courses of study. Some of the training attended during 2007 was:

Accident Report Writing AFIS Basic School Resource Officer Child Passenger Safety Technician Clean Certification Computerized Diagramming Counter Terrorism Strike Task Team Courtroom Testimony CPIN Training CPR Certification Diagramming & Animation Training DUI Training Educational School Programs Excel Part II FATS Fall Firearms Qualification Field Training Officer First Aid Forensic Mapping Glock Armorer's Course GRAPLE Instructor Hostage Negotiations IAAP Pennsylvania Division Educational Conference Identify Theft Investigation Course Interview & Interrogation JNET Certification JTAC Certification Training Law Enforcement Carbine Law Enforcement Rifle LiveScan MAGLOCLEN - Information Sharing Conference MCSAP Certification Missing & Abducted Children Mobile CAD MPOETC 2005 Mandatory In-Service Training MPOETC 2007 Mandatory In-Service Training Officer Update Training Outstanding Receptionist

### CONCLUSION

In 2007, we handled 27,474 calls, 797 more than 2006 for a 2.99% increase. Six municipalities increased and two decreased. The most dramatic increase is Conewago Township (+ 425 calls) and the most dramatic decrease is North York Borough (- 85 calls). A breakdown of our overall jurisdiction and individual municipal activity appears on Table VII.

CALLS FOR POLICE SERVICE

When we consider the workload and the demands placed upon our staff, credit must continue to be directed to our individual members. Without question, the personnel associated with the Northern York County Regional Police Department are exceptional! As the studies have indicated, they do more work with less manpower, at less cost, when compared to others. As evidenced by the most recent 1992 study finding, a savings of over \$800,000 annually. It is through their efforts that the Department continues to provide quality service and at the same time, receive recognition that, to date, has been a model for other organizations. In order to continue to be able to do this, it should be realized that continued support and direction from the Board of Commissioners is imperative. On behalf of all the members--sworn and civilian alike--we are proud to have been provided the opportunity to serve our communities throughout 2007!!

Respectfully submitted,

CARL A. SEGATTI Chief of Police

sjg

CAVEAT: Although the year-end report is historically submitted and signed by the Chief of Police, it clearly represents the efforts of others. To wit, this report was generated with the assistance of several members of the department, including Lt Bollinger, Lt Bentzel, Cpl Burchfield, Sergeants Steffen and Lash, Officers Allen and Wise, Ms. Maughlin, Ms. Stare, Ms. Wales, and Ms. Mummert.

> Special recognition should be offered to Ms. Grim and Ms Maughlin. Without Sonya's "cheerful" tolerance during rewrites and Lisa's "yeoman's work" in pulling together statistics from several databases, this report would not have been possible!
